3. Alternate Proficiency Assessment (APA) results for proficiency have been added to the special education and other subgroup calculations.
4. For limited English proficient (LEP) students, the full flexibility of the law is applied. Results for students who have exited from English language instructional programs are included for up to two years.

8. For participation calculations, the student count is 40, that is, subgroups with 40 or more students are calculated. For proficiency calculations, the student count is 30 for all student subgroups.

12. Safe harbor is attained if the proportion of students in the subgroup or the total population scoring partially proficient is reduced by 10% over the previous year.
13. If prior year's data are not available, such as for new or reconfigured schools, safe harbor is not calculated.
14. All IEP-exempt special education students are calculated for AYP; the exemption refers to graduation requirements only.
