COLLABORATIVE PROFESSIONAL LEARNING IN SCHOOL AND BEYOND:

A TOOL KIT FOR NEW JERSEY EDUCATORS

The tool kit is a resource that can assist schools and districts in implementing collaborative communities of inquiry for the purpose of improving teacher practice and student performance. Among the tools are time-saving articles, rubrics, planning forms, and program assessment instruments. You will also find numerous strategies that have been used successfully across the nation. Each chapter begins with “Where are we?”, a short self-assessment tool used by teams to spark discussion as their professional development model evolves to become more responsive to teachers’ and students’ needs.

To access the tool kit online – contact Victoria Duff 609-292-0189 or Carol Albritton 609-777-4482
