

# **American Recovery and Reinvestment Act of 2009 (ARRA)**

Title 1, Part A  
Recovery Funds for  
Grants to Local  
Education Agencies

# ARRA Background

- Provides \$10 billion in additional FY 2009 funds to LEAs for schools with high concentrations of impoverished students;
- Creates an unprecedented opportunity to strengthen teaching, close achievement gaps, and stimulate the economy; and
- Enables LEAs to serve more than the 18 million students Title I funds currently serve.

# Four Principles That Guide Distribution and Use of ARRA Funds

- A. Spend funds quickly to save and create jobs;
- B. Improve student achievement through school improvement and reform;
- C. Ensure transparency, reporting, and accountability; and
- D. Invest one-time ARRA funds thoughtfully to minimize the “funding cliff.”

## A. Spend Funds to Save and Create Jobs

- Department distributes funds quickly;
- States and LEAs rapidly develop plans to use funds, consistent with statutory reporting and accountability requirements; and
- States and LEAs promptly begin spending funds to help drive nation's economic recovery.

## **B. Improve Student Achievement through School Improvement and Reform**

- Make progress toward rigorous college- and career-ready standards and high-quality assessments for all students;
- Make improvements in teacher effectiveness and the equitable distribution of teachers; and
- Provide intensive support and effective interventions for the lowest-performing schools.

## C. Ensure Transparency, Reporting, and Accountability

Prevent fraud and abuse, support most effective use of funds, and accurately measure and track results by:

- Requiring recipients to publicly report how they use funds, and
- Subjecting funds to additional and more rigorous reporting requirements than normal.

## **D. Invest One-Time ARRA Funds Thoughtfully to Minimize the “Funding Cliff”**

Recipients must be mindful that ARRA funds . . .

- Represent historic yet temporary infusion of dollars;
- Will be available for obligation until September 30, 2011; and
- Should be invested in ways that will be sustainable after funding expires.
