Subject: Make Clean Energy a Priority for 2015

Jul 30, 2015

EMP comments EMP Comments

Dear EMP comments Comments,

The Energy Master Plan will help shape New Jersey's energy future in 2015 and beyond. As the president of the Board of Public Utilities you have the power to help make dirty energy a thing of the past. I urge you to make clean energy a priority for the 2015 EMP.

The BPU has the opportunity to ensure that all New Jersey residents have the benefit of clean, safe and affordable energy. Dirty fossil fuels are putting New Jerseyans at risk of disastrous explosions, dire health consequences and dangerous climate impacts. The EMP is your chance to set a safe, 21st century energy strategy New Jersey.

The Board of Public Utilities should establish the following goals for the 2015 EMP:

Allow the wind energy project off our coast to proceed.
We need it now to bring both jobs and energy to our State.

- 1.) Eliminate NJ's reliance on coal by retiring PSEG Hudson and Mercer
- 2.) Ensure New Jersey's compliance with the EPA Clean Power Plan
- 3.) Establish binding energy savings targets
- 4.) Stop the expansion of natural gas pipelines throughout the state
- 5.) Stop the transportation of crude oil into and out of New Jersey

Sincerely,

Greg and Susan Krawczyk

Dirty fossil fuels are putting New Jerseyans at risk of disastrous explosions, dire health consequences and dangerous climate impacts. The EMP is your chance to set a safe, 21st century energy strategy New Jersey.

The Board of Public Utilities should establish the following goals for the 2015 EMP:

- 1.) Eliminate NJ's reliance on coal by retiring PSEG Hudson and Mercer
- 2.) Ensure New Jersey's compliance with the EPA Clean Power Plan
- 3.) Establish binding energy savings targets
- 4.) Stop the expansion of natural gas pipelines throughout the state
- 5.) Stop the transportation of crude oil into and out of New Jersey

Sincerely,

Bianca Williams

EMP comments EMP Comments

Dear EMP comments Comments,

The Energy Master Plan will help shape New Jersey's energy future in 2015 and beyond. As the president of the Board of Public Utilities you have the power to help make dirty energy a thing of the past. I urge you to make clean energy a priority for the 2015 EMP.

The BPU has the opportunity to ensure that all New Jersey residents have the benefit of clean, safe and affordable energy. Dirty fossil fuels are putting New Jerseyans at risk of disastrous explosions, dire health consequences and dangerous climate impacts. The EMP is your chance to set a safe, 21st century energy strategy New Jersey.

The Board of Public Utilities should establish the following goals for the 2015 EMP:
