¹Incidence rates - per 100,000 population, age-adjusted to the 1970 U.S. standard population. Cases of unknown county are included in the State numbers and rates. Counties with fewer than five cases for each gender in each time period were removed from the table - Hunterdon, Morris, Ocean, Sussex, and Warren counties. The dashes indicate fewer than five cases. Source: New Jersey State Cancer Registry.

²Average annual rate.
