Johnson Park

#### Essay Contest Winner Quote

"Optimism, hope and patience are the three virtues NJEIS has instilled in me and the members of my family. On some of the darkest days, these 'miracle workers' taught us how to cope, face the challenges and smile at whatever progress was made. Each week came a new challenge and each week we became a team and worked together at trying to conquer it."

#### Essay Contest Winner Quote

"If I had to sum up in one word what the NJ Early Intervention System has meant to our family, it's hope... We learned different techniques that we were able to start incorporating into our daily lives that made us feel more in control and like we were doing something to help him along, even when his therapist wasn't there... They even taught us how to include our oldest son which was so important so that he did not feel left out"

### HELPFUL HANDS REIC

MAY 17, 2010  
Fun Time Junction  
El Playdate

Right For My Child?  
Webinar

MAY 23, 2010  
Toddler Movement  
@ The Little Gym

#### Essay Contest Winner Quote

"The best part about his initial evaluation wasn't just the relief we felt in hearing how he could greatly benefit from specific therapies, but that we instantly started receiving good solid advice... That's always been the most rewarding part about the NJEIS, the direction and guidance we've received from day one.... We are doing better job today as parents because our family is getting the help we need, thanks to the services and effort of the NJEIS"

### SOUTHERN REIC

#### Essay Contest Winner Quote

"The expertise of the early intervention team proved to be the missing link for our family's optimal adjustment. In addition to their clinical skills, their compassion and encouraging words facilitated a pro-active 'journey'.... We have been empowered... We are grateful for the Early Intervention Team. They are our heroes"
