

New Jersey Department of Health  
PEOSH Unit

**EMPLOYEE EXPOSURE DETERMINATION**

Note to Employer:

- 1) You are not required to complete both sections that follow; you may only complete the section that applies.
- 2) Also, examples of category B would include custodians who occasionally clean contaminated equipment and laundries where some workers are assigned the task of handling contaminated laundry. Facilities are also required to notify contract employers (i.e., plumber, etc.) of potential contact with blood or other potentially infectious materials so they can take appropriate precautions.
- 3) "Good Samaritan" acts which result in exposure to blood or other potentially infectious materials from assisting a fellow employee (i.e., assisting a coworker with nosebleed, giving CPR or first aid) are not included in the Bloodborne Pathogens Standard. PEOSH, however, encourages employers to offer Post-Exposure Evaluation and Follow-up in such cases.

- A. As part of the exposure determination section of our ECP, the following is a list of all job classifications at our establishment in which **all** employees have occupational exposure:

---

---

---

---

- B. The following is a list of job classifications in which some employees at our establishment have occupational exposure. Included are a list of tasks and procedures in which occupational exposure may occur for these individuals.

---

---

---

---

All exposure determinations for A and B were made without regard to the use of Personal Protective Equipment (PPE).

If needed, additional job classification lists and task sheets for Section A and B are provided in the Appendix Section (see Appendix A-3 and A-4).
