GENERAL DESCRIPTION

The New Jersey Department of Health has been mandated to establish per P.L.2019, c.75 the New Jersey Maternal Mortality Review Committee (NJMMRC), which will annually review and report on maternal death rates and the causes of maternal death in the State, and provide recommendations to improve maternal care and reduce severe adverse outcomes related to, or associated with, pregnancy. The work of the NJMMRC will be conducted in collaboration with the New Jersey Maternal Care Quality Collaborative (NJMCQC) and the New Jersey Maternal Data Center (NJMDC).

The qualitative data analyst will conduct the following activities:

Utilize qualitative methods to collect, analyze and document information on cases of maternal mortality in New Jersey to inform MMRC case review, with a focus on investigating and reporting on the impact of social determinants on maternal health outcomes.

Participate in MMRC meetings, and contribute to data entry in the Maternal Mortality Review Information Application (MMRIA) data system.

Prepare summaries for quarterly and annual reports that include qualitative analysis of the MMRC case reviews as well as any key informant interviews conducted. Help summarize additional qualitative data that is generated during the review process and prepare for dissemination.

REQUIREMENTS (EDUCATION / EXPERIENCE / LICENSES)

EDUCATION: Graduation from an accredited college or university with a Master's degree in a discipline appropriate to the position.

EXPERIENCE: Two (2) years of experience in a field appropriate to the position.

NOTE: A Doctorate in a discipline appropriate to the position may be substituted for two (2) years of experience indicated above.

LICENSE: Appointees will be required to possess a driver's license valid in New Jersey only if the operation of a vehicle, rather than employee mobility, is necessary to perform the essential duties of the position.
