

VACANCY ANNOUNCEMENT

The Department of Health received a Civil Service Commission decision on August 26, 2020 approving interim appointments for Unclassified Service positions within the Department of Health for an interim Public Health Recovery Division, Epidemiology and Laboratory Capacity Enhancing Detection. This interim division is currently established and is expected to remain operational until December 30, 2025.

Title Health Data Specialist 2 [Unclassified]			Salary P25 \$69,579.06 - 98,899.62
Posting Number E11-23	Position Number 962014	Number of Positions 1	Posting Period * From: 01/06/2023 To: 07/06/2023
Location: Division of Epidemiology, Environmental and Occupational Health Communicable Disease Service 135 E. State Street, 2nd Floor Trenton, NJ 08625		Scope of Eligibility/Open to: Applicants who Meet the Requirements	
GENERAL DESCRIPTION			
<p>Under direction of the Communicable Disease Service, organizes and directs assigned health COVID-19 data analysis activities of a complex and technical nature; may function as a lead worker, providing guidance to staff of lower levels and taking the lead in health research-related matters. Independently designs health data projects that are components of a broader research effort and assists other program staff to develop, conduct, and evaluate data system studies; revises and updates existing systems to monitor the impact of COVID-19. Leverages large complex datasets from public health sources including Communicable Disease Reporting and Surveillance System (CDRSS), New Jersey Syndromic Surveillance System (EpiCenter), NJ Electronic Death Registry System (EDRS) and NJ Hospital Discharge Data Collection System (NJDDCS) to effectively answer questions about COVID-19-related morbidity and mortality. Develops new methods to organize health data and collection, as well as appropriate criteria and measures to analyze and interpret such data in support of efforts to prevent and respond to COVID-19 and other infectious diseases. Gather, organize, maintain and analyze data such as hospital encounters, deaths, emergency medical services, prescription and survey data. Use data manipulation techniques to link diverse datasets, validate, clean, and transform data in SAS or R using statistical methodologies. Conduct and review data visualization projects for accuracy, consistency, and clarity. Work collaboratively with stakeholders across agencies on joint initiatives.</p>			
REQUIREMENTS (EDUCATION / EXPERIENCE / LICENSES)			
<p>EDUCATION: Graduation from an accredited college or university with a Bachelor's degree including or supplemented by twelve (12) semester hour credits in Epidemiology, Public Health, Health Informatics, Health Information Management, Economics, Statistics, Quantitative Analysis, Operations Research, and/or Market Research.</p> <p>EXPERIENCE: Three (3) years of comprehensive technical research and statistical analysis experience in epidemiology, public health, economics, public health administration, or related field which involves the use, operation, and/or management of database systems.</p> <p>NOTE: Applicants who do not possess the Bachelor's degree but who do possess the required twelve (12) semester hour credits may substitute the remaining education with experience as indicted above on a year-for-year basis.</p> <p>NOTE: A Master's degree in one of the disciplines indicated above may be substituted for one (1) year of the required experience.</p> <p>LICENSE: Appointees will be required to possess a driver's license valid in New Jersey only if the operation of a vehicle, rather than employee mobility, is necessary to perform the essential duties of the position.</p>
