MEDICAID COMMUNICATION NO. 00 - 1 **DATE:** January 4, 2000

TO: County Welfare Agency Directors
New Jersey Care...Special Medicaid Program Supervisors
NJ KidCare Liaisons

SUBJECT: Income Verification; Undocumented Immigrants

The purpose of this Communication is to advise you of a policy which affects income verification for certain NJ KidCare and other Medicaid program applicants. While this policy generally applies to immigrants who may be undocumented, but whose children meet citizenship requirements, it may also apply to any other undeclared income where the employer will not provide documentation.

As you may be aware, the Division is partnering with many community based organizations (CBOs) which are assisting in enrollment activities for the NJ KidCare program. The issue which raises the most concern among the CBOs assisting a large immigrant population is the unwillingness of many employers to provide documentation for undeclared income, in writing, generally out of fear of legal reprisal.

As a result, if a CBO is willing and able to obtain verbal confirmation from the employer, it is to be considered as acceptable documentation of income if the CBO, on its own letterhead, attests to contacting the employer and to the amount the employer stated as the employee's income. It should be noted that this process is only to be used in cases where the employer absolutely refuses to provide the information firsthand. The CBO's letter should state that fact and should also contain both the name of the applicant and the identification of the employer.

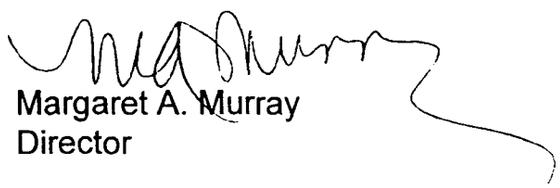
There are cases in which the income of one or both parents is undeclared because an employer is not claiming the individual as an employee for tax purposes, i.e., "under-the-table" income. For income verification purposes, if the employer is willing to provide documentation, it must be written on appropriate letterhead and must state the monthly amount received by the employee. In cases of an irregular monthly income amount, the minimum of the last four amounts received by the employee and the frequency of the payment (weekly, bi-weekly, etc.) should be indicated. Again, if the employer is unable or unwilling to give this information, the CBO may verbally confirm income with the employer and follow the procedure above. Enclosed is a sample form the CBO may use so long as the information is provided on its own agency letterhead.

The community agencies which are participating in NJ KidCare enrollment activities have been formally advised of this policy by the Office of NJ KidCare and their cooperation is expected. As a result, you can anticipate the receipt of income verification using this method and are instructed to process eligibility for NJ KidCare (or other Medicaid programs) accordingly. Attached for your reference is a complete listing of the community based organizations which are currently identified as NJ KidCare enrollment sites.

In addition, it should be noted that this policy also applies to your agencies when processing eligibility for the various Medicaid programs. Your contact with the employer will be documented in the case record and serve as income verification in determining eligibility.

It is hoped that implementation of this policy will remove an impediment which may have prevented a certain group of applicants from completing the eligibility process. If you have any questions regarding this communication, please contact the Division's Bureau of Eligibility Policy at (609) 588-2556.

Sincerely,



Margaret A. Murray
Director
