

**Division of Mental Health and Addiction Services
Women's Intensive Supportive Housing (WISH) Program
Date of Final Award – June 3, 2015**

Name of Program: Women's Intensive Supportive Housing (WISH) Program

Purpose: This Request for Proposals (RFP) sought appropriate supportive housing and services for pregnant and/or parenting women with co-occurring disorders (substance use disorder and mental illness) who are homeless or at risk of homelessness and being discharged from or have successfully completed long-term residential or halfway house treatment in a Department of Human Services (DHS) licensed substance use treatment facility in the past 30 days. Total annualized funding is \$187,000 for the development of a WISH team to provide case management and supportive services to the identified consumers and their children. In order to meet the needs of the individuals served through this RFP, ten (10) DMHAS sponsored rental subsidies will be made available up to an estimated \$200,000 total and managed by the Supportive Housing Connection.
