

There were 225 Salem County residents who went through the IDRC Education and Evaluation program in 2006. The following tables and graphs give demographic information about these clients. Clients' reported alcohol and other drug use characteristics are also described. Information was gathered from a mandatory self-administered questionnaire given during the IDRC classes and the counselors' screening/evaluation scoring forms.

* RIASI Screening Score (Research Institute on Addictions Self Inventory): A DUI offender screening instrument created for and used by the State of New York in its Stop DWI Programs. Included are 41 True/False questions and 8 multiple response questions, each worth 1 point each. The questions cover several factors of substance dependence: classic symptoms, family history, risk-taking behavior, psychological factors, interpersonal competence, health, and alcohol beliefs. It was considered a positive screen if the client scores a 9 or above.
