

Justice Involved Services

*Justice Involved Services are designed to assist persons with serious and persistent mental illness who become entangled with the criminal justice system, to avoid or radically reduce the number of days incarcerated in jail and or assist with their reentry to their communities in order to receive the appropriate treatment. Services vary by county, but may include the following: Pre-booking, a police based diversion to avoid arrest for non-criminal, non-violent offenses. Police are trained to identify and de-escalate situations and diverting to mental health crisis or pre-crisis services; Post booking intervention for consumers who have been arrested but for whom the court may be released on their own recognizance or released from jail with mental health intervention. Those consumers serving jail sentences or long detention are targeted for re-entry services. Based upon the APIC model, **A**ssess, **P**lan, **I**dentify and **C**oordinate, services include identification/case finding, pre-release planning and successful linkage to critical mental health, social service, employment and housing upon release to the community.*
