

**Request for Proposals (RFP)
Women's Intensive Supportive Housing (WISH) Program
Addendum #1**

March 19, 2015

The following modifications to the subject RFP are issued as of the date stated above. The deleted text is indicated using ~~strikethrough~~, while next/modified text is indicated with underline.

Section Reference	Page Number	Modification
I.	3	This Request for Proposals (RFP) is issued by the New Jersey Division of Mental Health and Addiction Services (DMHAS) for appropriate supportive housing and services for pregnant and/or parenting women with substance use <u>co-occurring</u> disorders (<u>substance use disorder and mental illness</u>) who are homeless or at risk of homelessness and being discharged from or have successfully completed long-term residential or halfway house treatment in a Department of Human Services (DHS) licensed substance use treatment facility in the past 30 days.
II.	6	The population to be served is pregnant and/or parenting women with substance use <u>co-occurring</u> disorders who are homeless or at risk of homelessness and being discharged from, or have successfully completed, long-term residential or halfway house treatment in a DHS licensed substance use disorder treatment facility in the past 30 days.
IV.	12	Any pregnant and/or parenting woman with a substance use <u>co-occurring</u> disorder who is homeless or at risk of homelessness and being discharged or successfully completed long-term residential or halfway house substance use treatment within the past 30 days is eligible for the WISH Program. An individual with a co-occurring disorder may also be considered, as long as the primary disorder is substance use.
VII.	21	29. A description of how the agency will work with the Children's System of Care (CSOC) and Child Protection and Permanency (CP&P), including what the bidder would include as key elements to a memorandum of understanding or affiliation agreement with CSOC and CP&P <u>collaboratively with other case management providers such as behavioral health and mental health providers.</u>
