**Federal Standards Statement**

42 U.S.C. § 1396d(a) requires a state Title XIX program to provide inpatient and outpatient hospital services to most eligibility groups. Inpatient and outpatient hospital services are optional services for the medically needy population; however, New Jersey has elected to provide these services to medically needy beneficiaries. Federal regulations at 42 CFR 440.2, 440.10, and 440.20, provide definitions of inpatient hospital services and outpatient hospital services.

Title XXI of the Social Security Act allows states to establish a children's health insurance program for targeted low-income children. New Jersey elected this option through implementation of the NJ FamilyCare Children's Program. 42 U.S.C. § 1397cc, provides broad coverage guidelines for the program. Section 2110 of the Act, 42 U.S.C. § 1397jj, defines hospital services for the children's health insurance program.

The Department has reviewed the applicable Federal statute and regulations and the readopted rules do not exceed Federal standards. Therefore, a Federal standards analysis is not required.
