

#### **Learning for Life and Exploring Annual Health and Medical Record**

(Valid for 12 calendar months)

# **Policy on Use of the Learning for Life and Exploring Annual Health and Medical Record**

In order to provide better care for its members and to assist them in better understanding their own physical capabilities, Learning for Life recommends that everyone who participates in a Learning for Life or Exploring event have an annual medical evaluation by a certified and licensed health-care provider—a physician (MD or DO), nurse practitioner, or physician assistant. Providing your medical information on this form will help ensure you meet the minimum standards for participation in various activities. Note that adult leaders must always protect the privacy of unit participants by protecting their medical information.

**Parts A and B** are to be completed at least annually by participants in all Learning for Life and Exploring events. This health history, parental/guardian informed consent and hold harmless/release agreement, and talent release statement is to be completed by the participant and parents/guardians.

**Part C** is the physical exam that is required for participants in any event that exceeds 72 consecutive hours or when the nature of the activity is strenuous and demanding. Service projects or work weekends may fit this description. Part C is to be completed and signed by a certified and licensed heath-care provider—physician (MD or DO), nurse practitioner, or physician assistant. It is important to note that the height/weight limits must be strictly adhered to when the event will take the post/club/group more than 30 minutes away from an emergency vehicle or an accessible roadway, or to remote areas.

#### **Risk Factors**

Based on the vast experience of the medical community, Learning for Life has identified that the following risk factors may define your participation in various outdoor activities.

- · Excessive body weight
- · Heart disease
- Hypertension (high blood pressure)
- Diabetes
- Seizures

- Lack of appropriate immunizations
- Asthma
- Allergies/anaphylaxis
- Muscular/skeletal injuries
- Psychiatric/psychological and emotional difficulties

For more information on medical risk factors, visit the Safety First Guidelines on www.learningforlife.org.

### **Prescriptions**

The taking of prescription medication is the responsibility of the individual taking the medication and/or that individual's parent or guardian. An adult leader, after obtaining all the necessary information, can agree to accept the responsibility of making sure a youth takes the necessary medication at the appropriate time, but Learning for Life does not mandate or necessarily encourage the leader to do so. Also, if state laws are more limiting, they must be followed.

## **Part A: Informed Consent, Release Agreement, and Authorization**

Full name:	Outing participants:  Post/club/group No.:					
DOB:	or staff position:					
Informed Consent, Release Agreement, and Authorization	☐ Without restrictions					
understand that participation in Learning for Life activities involves a certain degree of risk. I have carefully considered the risk involved and have given consent for myself and/or my child to participate in these activities. I understand that participation in these activities is entirely voluntary and requires participants to abide by applicable rules and standards of conduct. I release Learning for Life, the local council, the activity coordinators, and all employees, volunteers, related parties, or	With special considerations or restrictions (list)  Talent Release Agreement  I hereby assign and grant to Learning for Life the right and permission					
other organizations associated with the activity from any and all claims or liability arising out of this participation.  Approve the sharing of the information on this form with Learning	to use and publish the photographs/film/videotapes/electronic representations and/or sound recordings made of me or my child by Learning for Life, and I hereby release Learning for Life from any and all liability from such use and publication.					
for Life volunteers and professionals who need to know of medical situations that might require special consideration for the safe conducting of Learning for Life activities.  In case of an emergency involving me or my child, I understand	I hereby authorize the reproduction, sale, copyright, exhibit, broadcast, electronic storage, and/or distribution of said photographs/film/videotapes/electronic representations and/or sound recordings without limitation at the discretion of Learning for Life, and I specifically waive					
the tase of all enleggericy involving the or my child, it understand that every effort will be made to contact the individual listed as the emergency contact person. In the event that this person cannot be reached, permission is hereby given to the medical provider selected by the adult leader in charge to secure proper treatment, including nospitalization, anesthesia, surgery, or injections of medication for me or my child. Medical providers are authorized to disclose to the adult in charge examination findings, test results, and treatment provided for purposes of medical evaluation of the participant, follow-up and communication with the participant's parents or guardian, and/or determination of the participant's ability to continue in the program activities	any right to any compensation I may have for any of the foregoing. #### **Height/Weight Restrictions**

Other

If you exceed the maximum weight for height as explained in the following chart and your planned program or special activity will take you more than 30 minutes away from an emergency vehicle/accessible roadway, you may not be allowed to participate.

#### Maximum weight for height:

Height (inches)	Max. Weight						
60	166	65	195	70	226	75	260
61	172	66	201	71	233	76	267
62	178	67	207	72	239	77	274
63	183	68	214	73	246	78	281
64	189	69	220	74	252	79 and over	295
