

E R R A T A

As the *Second Public Report of Aggregate Data* prepared by the Office of Law Enforcement Professional Standards (OLEPS) was nearing publication, the State Police notified OLEPS of a programming issue with the aggregation of Title 19 speeding summonses on the New Jersey Turnpike (Troop D) and Garden State Parkway (Troop E). Specifically, summonses for Title 19 moving violations were aggregated in many CAD applications as nonmoving violations beginning in December 2008 until the programming was corrected in September 2010. The data for the *Second Public Report of Aggregate Data* were corrected prior to publication. However, in the *First Public Report of Aggregate Data* (covering State Police stops for May and June 2009) prepared by OLEPS and in the *Nineteenth Semiannual Public Report of Aggregate Data* (covering State Police motor vehicle stops from November 1, 2008 through April 30, 2009) published pursuant to the 1999 Consent Decree between the US Department of Justice and the State of New Jersey, stop incidents in which at least one moving summons was issued were under counted and counts of incidents with summonses for non-moving violations were inflated for these troops, as well as for Division-assigned units and thus for the Division-wide totals. The corrected data can be found in the ADispositions@ section at the bottom of the pages that follow. These pages should replace those in the published reports for

Exhibit D,
Exhibit E,
Exhibit F, and
Exhibit G.
