Subject: why is the highlands council setting up 4members to do a number on the highlands act

the highlands act should not be meddled with. it should stand as written. the whiners are simply that whiners, who want to do the rest of nj in.

we all have an obligation to make sure water is there for the state. I do not understand why 4 people were appointed who seem to be those in favor of cutting up the highlands act into pieces.

I am against the creation of this 4 member council with preexisting ideas that they have. this comment is for the public record. please receipt. Barbara sachau
