Web Response

As someone who lives in the middle of the Highlands Preservation, I want to go on record as stating that I am strongly in favor of the Highlands Act and the preservation it provides. Like death from a thousand cuts, every new house, every new development and every new encroachment in the area only serve to reduce the quality of the environment and the water. If people want to invest in land for building, I urge you to redirect them to the blighted areas of our cities and rebuild them.... and when they do, we'll have the clean water they'll be needing.
