**\*\*UPDATE - CONSTRUCTION ADVISORY - ROUTE 20 PATERSON\*\***

**(Newark)** – As previously reported, the Passaic Valley Sewerage Commission (PVSC) revised its work completion schedule on Route 20 in Paterson.

To date, approximately 2,020-LF (Linear Feet) have been installed, which represents the total amount of re-lining scheduled for this area. We are in the process of grouting the voids created between the new and old pipe, and will shortly be preparing for backfill and site restoration.

It is still anticipated that the work will be completed by the end of December or shortly thereafter.

The Passaic Valley Sewerage Commission recognizes that this project has had an enormous impact on commuters, residents and businesses. We apologize for the extensive delays and for the residual problems associated with the rehabilitation project.

As the project draws to a close, PVSC will continue to provide updates. The precise timing of the work is subject to change due to weather or other factors. Motorists are encouraged to check [www.511nj.org](http://www.511nj.org) for real-time travel information.
