PVSC Recognizes Local Businesses With Perfect Environmental Compliance Records

Newark, NJ – For the 23rd consecutive year, the Passaic Valley Sewerage Commission (PVSC) is recognizing companies that operated in the previous calendar year without having incurred a single effluent (wastewater discharge) or reporting violation.

PVSC service area companies who qualify as Significant Industrial Users are issued Sewer Use Permits that include limits for the quality of effluent the companies may discharge into the sewer system. These companies must also monitor and report on their discharges to PVSC on a monthly basis. Compliance violations occur when a company fails to file its monthly report on time or exceeds its permitted discharge limits.

Each facility that goes a full calendar year without a single violation earns a PVSC Permit Compliance Award. Included among this year’s honorees is Sika Corporation of Lyndhurst, which has earned the award 21 consecutive years. Darling International of Newark and Marcal Manufacturing of Elmwood Park have earned the award 16 and 15 consecutive years, respectively. Several companies have earned the award for a full decade or more.

“As part of our ongoing mission of improving the environment in PVSC’s service area, the Commissioners and I are very pleased to honor 100-plus companies that have put forth the effort and commitment to meeting their Sewer Use Permit requirements,” said Executive Director Gregory Tramontozzi. “Compliance is not easy or inexpensive, but these businesses do it, year after year, because they’ve made a commitment to their communities to operate in an environmentally responsible way.”

“I would equate this to a driver not exceeding the speed limit even once during an entire year,” added PVSC Director of Inspection and Compliance Herbert Skinner. “In the case of most of these award winners, it’s like not exceeding the speed limit for many years.”

A complete list of the honorees follows on the next several pages.
