**Content Note**

This series consists primarily of New Jersey railroad company annual returns of land, signal, track and structure plans to the Public Utility Tax Bureau (or one of its predecessor agencies), and related "roadway completion reports." The plans are usually in the form of large, folded blueprints stored in manilla envelopes by year. Beginning in 1968, standardized annual reports were also included for each railroad.

*NOTE:* These records are unprocessed. Also, the 1973 envelopes were missing at the time of accession.
