Population Targets are for Average Weekly Forecasted Population for Fiscal Year 2016							

NOTES: All monthly data in current reporting period represents May-2016 data unless otherwise noted. The annual current period is FY2016 with the exception of the 36 Month Reincarceration Rate for which the current period reflects the reincarceration rate for inmates released in CY2011.

Drug tests are ordered for a variety of reasons, making future metrics difficult to predict. Examples range from random testing, routine testing (Therapeutic Community Program, Pre-Release testing) to circumstances involving Reasonable Suspicion including orders by Disciplinary Program Hearing Officers.

Population counts are calculated by averaging all Friday census counts within each calendar month. Population targets are for Average Weekly Forecasted Population for Fiscal Year 2016.

NOTES: Due to recent technical issues with a data reporting system, the medical and dental specialty consult completion rates for the current reporting month are calculated using different terminology than prior reports.

The Percentage of High School Equivalency Test Takers that had Passing Scores is calculated as the number of persons who passed the HSE exam divided by the total number of persons who were administered the exam.

The Number of Inmates Eligible for Mandatory Education target reflects a larger pool of inmates than cited in prior reports due to recent changes in legislation.

The Mandatory Education Enrollment Rate does not include those inmates who waived participation.
