NOTES: All monthly data in current reporting period represents May-2018 data unless otherwise noted. The annual current period is FY2018 with the exception of the 36 Month Reincarceration Rate for which the current period reflects the reincarceration rate for inmates released in CY2013.

Drug tests are ordered for a variety of reasons, making future metrics difficult to predict. The target has been changed to 1.0% from 6.0% in prior iterations of this report due to a change in the reporting methodology which occurred in FY 2017.

Population counts are calculated by averaging all Friday census counts within each calendar month. Population targets are for Average Weekly Forecasted Population for Fiscal Year 2018.

#### NOTES:

The Percentage of State Facility Education Act (SFEA) Inmates who were Awarded a High School Diploma metric describes the percentage of SFEA inmates who received a HS diploma within the entire FY. It is calculated by dividing the average number of SFEA inmates who received a HS diploma within that fiscal year to the average number of SFEA inmates enrolled within that fiscal year.

The Percentage of High School Equivalency Test Takers that had Passing Scores is calculated as the number of persons who passed the HSE exam divided by the total number of persons who were administered the exam.

The Mandatory Education Enrollment Rate is a reflection of the service target and the number of inmates enrolled in mandatory education.
