

Leaders in Design Assistance Expertise and Transportation Engineering

- WSP | PB worked with NJTPA to establish their Local Safety (LS) and High Risk Rural Roads (HRRR) Design Assistance Program - establishing program expectations, project approach and delivery schedule
- LS/HRRR projects involve traffic signal upgrades, ADA compliance, pedestrian cross- walks, and signing and striping upgrades - similar to the efforts anticipated for the SRTS projects
- WSP | PB has been providing design assistance to counties and cities in northern NJ for their LS/HRRR projects since 2013 – successfully delivering final Plans, Specifications and Engineering Estimates (PS&E) to NJDOT Local Aid under tight time constraints in order to secure project authorization
- WSP | PB has been working with each NJDOT Local Aid District and we are thoroughly familiar with their expectations and submission requirements
- WSP | PB prepared guidebooks, developed training programs, prepared designs and provided outreach and implementation support to NJDOT for New Jersey's Complete Streets initiative
- WSP | PB has been providing expertise in bicycle and pedestrian engineering, safety, and facility design to NJDOT for over 15 years
- WSP/PB has traffic engineering expertise in MUTCD, traffic signal and stop sign warrant analysis, LOS analysis of intersections and traffic signal operations

Before/after comparison of a local safety intersection improvement project in Jersey City, implemented with the help of WSP|PB local design assistance services

About the Team

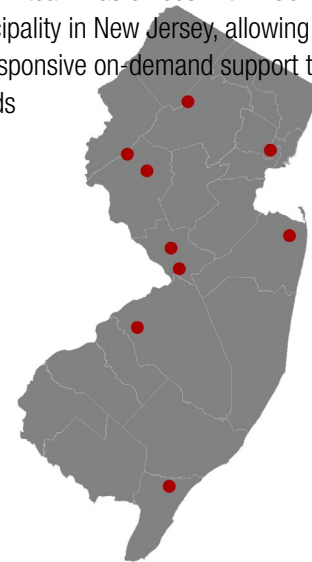

Staff

- The WSP | PB Team has a depth of resources in offices throughout NJ available to assist you with your design needs
- WSP | PB Team brings a solid background in municipal engineering, experience in SRTS projects, preparation of SRTS grant applications, and knowledge of NJDOT Local Aid requirements

Expertise	Resources
Civil Design	33
Drainage	7
Environmental	11
Planning	11
Survey	12
Traffic	19
CADD	22

Locations

The WSP | PB team has offices within 50 miles of nearly every municipality in New Jersey, allowing us to provide local and responsive on-demand support to meet your project needs

Project Manager

Tom Pagani, PE
