Baseline Document Change Announcement

2001 Standard Roadway Construction Details

Replacement of Class “C” concrete with Class “B” concrete.

BDC02D-01

February 6, 2003

SUBJECT: Revision to the English and Metric 2001 Standard Roadway Construction Details CD-602-1, CD-603-1 through CD-603-9, CD-605-1 & 3, CD-610-1, CD-612-1, CD-614-1, CD-614-2, CD-617-3 through CD-617-5 related to the replacement of Class “C” concrete with Class “B” concrete; the use of 30B cast iron, and other incidental modifications.

REFERENCE: This announcement must be used in conjunction with [BDC02S-08](#), dated February 7, 2003, revisions to subsection 106.03, 305.05, 905.02, 914.04 and 914.05 of the 2001 Standard Specification.

The attached Standard Roadway Construction Details have been revised to replace the use of Class “C” concrete with Class “B” concrete; to limit the application of Standard Details for manhole and inlet castings to Class 30B cast iron and allow for the use of other classes of cast iron and other materials based on “Approved Products Lists”; and to include other incidental modifications.

Note 10 on CD-603-1.6 has been added, note states that the Standard Details apply to 30B cast iron only, this approach will allow for the use of products that meet our critical standards related to drainage, bicycle safety, general safety etc.

The incidental revisions include corrections to reinforcing bar sizes, correcting the presentation such as slopes to include “H” and “V” (example, was 6:1, now “6H: 1V”) and the note for “concrete/white concrete” as well as minor drafting corrections.
