October 8, 1996

MEMORANDUM
Baseline Document Change

Subject: Release of Contractor Payment System, - CPS Program Version 2.1
- Engineer's
Estimate System and the Operating Instructions Manual

The Department has released the Contractor Payment System (CPS) Program version 2.1 for the preparation of Engineer's Estimates. This new Program version 2.1 shall replace the current CPS version 1.2, and shall be used on all future projects.

This new program (CPS version 2.1) can be used for either the English Projects (based on 1989 Specifications) or the Metric Projects (based on 1996 Specifications which will be released shortly) by selecting the appropriate Specification year. A conversion program has also been released to convert the existing CPS version 1.2 to the new version 2.1.

A "P.C. Operating Instructions" manual for the users of this program is also being released. The users are strongly recommended to read and follow the manual to avoid operating troubles.

The distribution of the Program (version 2.1) and the Operating Instructions Manual shall be done as follows:

Distribution to In-House Staff and Public Agencies

The Program (version 2.1) diskettes and the copies of the Operating Instructions Manual are available, upon request, from the Document Control office (609-530-5289). In order to save time, disk and printing costs, the program (version 2.1) along with the Operating Instructions Manual can be E-mailed to the requester.

Distribution to Other Outside Agencies (Consultant, Contractors, etc.)

The CPS Program (version 2.1) and the Operating Instructions Manual can be down loaded from the NJDOT's Electronic Bulletin Board System (BBS), file area "DESIGN ENGINEER'S ESTIMATE SYSTEM".

For any questions regarding the Program version 2.1 or the Operating Instructions Manual contact the Program Support services at (609) 530-4685.
