Baseline Document Change Announcement

NJDOT Procedures Manual Revisions Construction Cost Estimate BDC99PR-005

September 20, 1999

Subject: Revisions to Section 4.2, Initial Design Submission, of the *NJDOT Procedures Manual*, for the Initial Engineer's Construction Cost Estimate Procedure.

Attached for inclusion in the *NJDOT Procedures Manual* and for use in advancing Department projects are revisions to the above mentioned Section. The **attached pages 4.2-1 through 4.2-57**, will replace the entire Section 4.2, pages 4.2-1 through 4.2-54. The cost estimate worksheets have been revised to reflect prices for the fiscal year 1999.

The Baseline Document Change Announcement, BDC98PR-005 dated September 15, 1998 entitled "Release of Revisions to Section 4.2.1, Initial Engineer's Construction Cost Estimate of the *NJDOT Procedures Manual*" is hereby superseded.

Instructions to Designers:

Effective October 15, 1999, the construction cost estimate, Right-of-Way cost estimate and utility relocation cost estimate for all projects under design shall be updated in accordance with the attached guidelines and submitted to the Manager, Bureau of Program Support Services. These revised costs will be used to develop the fiscal year 2000 construction program and beyond. In addition, estimates shall be revised whenever there is a significant change in the scope of a project. It is planned that Section 4.2 will be updated annually in September.

Instructions to Project Managers:

Project Managers must notify the designers of **all** projects that are under design that have not yet made a final submission to submit revised estimate forms. A Contractor Payment System estimate is acceptable if the design of the project has advanced far enough to have the quantities developed.
