1035 Parkway Avenue, PO Box 600, Trenton, New Jersey 08625-0600

Baseline Document Change Announcement

BDC08T-01

January 24, 2008

SUBJECT: Release of the 2008 Access Design Guidelines

The 2008 Access Design Guidelines are hereby released. The major goal is to provide interpretation of New Jersey State Highway Access Code and requirements of the Access Design deliverables on all State Capital Improvement projects. This document standardizes the format of all deliverables and provides quality control/quality assurance checklist.

Implementation Code S (Special)

These guidelines must be implemented in all applicable Department projects that have not completed Activity 2090 (Prepare Access Cutouts) within one month of the date of this announcement.
