

## **Capital Construction & Debt Service**

This section includes an overview and summary of appropriations and expenditures for the design, construction, and repair of major capital assets such as roads, bridges, parks, or other physical facilities.

The primary method for State financing of capital projects is through the sale of general obligation bonds of the State. The Debt Service portion of this section shows the amounts necessary to pay principal and interest due on capital projects financed via general obligation bonds.

## OVERVIEW

### Capital Planning Process

For fiscal 2007, the General Fund capital recommendation totals almost \$1.3 billion, including \$1.1 billion for legislatively-mandated projects funded through dedicated sources as well as \$179.7 million for discretionary projects that maximize federal matching funds and maintain essential state programs and services. Of the \$179.7 million in discretionary capital, \$96.9 million is allocated to pay debt service on New Jersey Building Authority projects. In addition to General Fund capital, \$17 million will be provided from other sources for critical statewide fire, life safety, emergency, and security projects.

The Capital Budget is largely based on the recommendations of the New Jersey Commission on Capital Budgeting and Planning. This Commission, composed of Executive, Legislative, and public members, prepares the State's Annual Capital Improvement Plan and serves in an advisory role to the Governor and the Legislature. In addition to the Commission, the capital budgeting process includes the Governor's Office, the Office of Management and Budget, the Department of the Treasury, and other State departments and agencies.

### Capital Highlights

To identify various chemicals harmful to livestock, in addition to identifying bacteria pathogenic to humans and livestock, \$250,000 is recommended to procure new liquid and gas chromatographic equipment within the Department of Agriculture.

The Department of Corrections will receive \$9 million from other sources to repair a high temperature hot water system at Southwoods Prison (\$8 million) and for trailer replacements (\$1 million).

To address fire and life safety concerns at the Department of Education, \$500,000 is recommended to fund a wet fire suppression system at the Piscataway Regional Day School. This project will better protect the life and safety of students. An additional \$1.9 million will be used to purchase a fully integrated state-of-the-art fire alarm system to comply with federal Americans with Disabilities Act and Title 6 requirements at the Katzenbach School for the Deaf.

For the Department of Environmental Protection, \$147.8 million is recommended. The recommendation provides \$34.5 million for Cleanup of Hazardous Substance Discharges, \$25.6 million in loans and grants for Brownfields Redevelopment Projects, \$17.1 million for remediation of Private Underground Storage Tanks, and \$25 million for Shore Protection. These four mandated programs are funded through dedicated sources. In addition, \$5.6 million is recommended for the HR-6 flood prevention program. Both the HR-6 and Shore Protection programs will generate substantial federal matching funds; an additional \$22.6 million will be available for HR-6, while the Shore Protection will provide \$56 million in federal and \$7.2 million in local contributions. Finally, \$40 million is recommended for capital improvements to the State's parks system.

For the Department of Human Services, \$17.7 million is recommended. This includes \$10 million for the Statewide Child Welfare Information System (SACWIS), a key component of the State's Child Welfare Reform Plan. This system will improve the administration of the Title IV-B Child Welfare and Title IV-E Foster Care programs and will generate \$10 million in federal matching funds. A total of \$3.2 million is recommended to replace an underground water distribution system affecting cottages at the Hunterdon Developmental Center. Also, \$4.5 million is recommended to upgrade Heating, Ventilation, and Air Conditioning (HVAC) systems at various facilities including North Jersey, Hagedorn, Greystone, Green Brook, and Vineland. In addition

to General Fund capital, \$5 million is recommended from other sources to connect the wastewater treatment facility at Ancora Psychiatric Hospital to the Camden County Municipal Utilities Authority.

For the Juvenile Justice Commission, \$1.5 million is recommended. Of this amount, \$500,000 is for suicide prevention improvements, \$500,000 is for critical repairs to Commission facilities, and \$500,000 is for fire safety initiatives at a number of facilities, including the Ocean and Voorhees Residential Community Homes.

The Capital recommendation also includes \$2.6 million for the Department of Military and Veterans' Affairs to fund 30 new beds for homeless veterans by renovating Ancora Psychiatric Hospital property and for installing fire suppression systems at the Bordentown, Flemington, Hammonton, and Tuckerton armories. The latter projects will generate a 75% federal match. Finally, an additional \$400,000 is recommended from other sources for emergency power generation at four strategic National Guard armories. These generators will allow operations to continue during emergencies so that MAVA can respond to homeland security/terrorism threats and natural disasters.

To ensure highway and mass transit improvements, \$895 million in dedicated funds is recommended for the Department of Transportation. This recommendation, combined with federal, State, and other matching funds, will provide for a transportation program totaling \$2.9 billion.

A total of \$6.9 million is recommended for statewide data processing improvements at the Office of Information Technology (OIT). Of this amount, \$6.5 million is recommended to finish the State's OIT Availability and Recovery Site (OARS), thus ensuring the integrity of data recovery for all state agencies. In addition, \$416,000 of State funding and \$1.1 million in other funds is recommended for network management equipment and software to prevent intrusion into the State's database. Another \$1.3 million in other sources is recommended for electrical and HVAC upgrades at the Riverview Plaza and Atlantic City CitiCenter. The most critically needed equipment is the replacement of the Uninterruptible Power Supply Systems at Riverview Plaza.

Finally, \$200.7 million is recommended for the Interdepartmental accounts. This includes \$98 million for the constitutionally-mandated Open Space, Farmland, Parks and Historic Preservation programs, and \$96.9 million for debt service costs on Building Authority bonds. A total of \$2.4 million is recommended for a roof and HVAC replacement at the State's Document Control Center, \$1.5 million for statewide security enhancements, \$1 million to modify state buildings to comply with the Americans with Disabilities Act, \$500,000 for the removal of hazardous materials from State facilities, and \$425,000 for HVAC/energy upgrades and fire code compliance. In addition to these funds, \$250,000 million will be available from other sources for HVAC upgrades in State office buildings.

### Capital Objectives

New Jersey's Capital program invests in critical short-term and long-term needs essential to the citizens of the State. These needs include preservation of existing capital equipment and facilities; investments in the transportation system; improvements to wastewater treatment and water supply facilities; cleanup of hazardous waste sites; preservation of open space; and construction of local schools and higher education facilities. Together, these investments ensure a clean and healthy environment, provide recreational space, enhance mobility, and generate economic growth and jobs for New Jersey citizens.

**OVERVIEW**

The primary method for State financing of capital projects is through the sale of State general obligation bonds, previously authorized by voter approval in the general election. The State must present debt before the voters in a general election as required by the statutory debt limitations in the State Constitution. The State Constitution provides that the State Legislature shall not create, in any fiscal year, debt or liability of the State, which, together with any previous debts or liabilities, exceeds at any time one percent of total appropriations, unless authorized by law and submitted to the people at a general election for approval by the voters. Since the current appropriation level is approximately \$28.9 billion, the debt limit is \$289 million before voter approval must be sought. The current level of outstanding general obligation debt is \$3.1 billion. Therefore, voter approval must be sought in order to authorize additional general obligation bonds. Voter approval is not required for any such law authorizing the creation of a debt for a refinancing of all or any portion of the outstanding debts or liabilities of the State, so long as the refinancing produces a debt service savings.

pay principal and interest due on capital projects financed via general obligation bonds. A factor affecting the fiscal 2007 Governor's Recommendation includes a projected debt service cost for proposed bond sales. The actual debt service payments and savings associated with bond sales are dependent upon the interest rates at the time of the sale and therefore, preliminary figures are estimates since actual schedules are not available until after a bond sale.

Appropriations for principal and interest payments on General Obligation bonds are recommended at \$432.8 million for fiscal 2007. This projected level of debt service reflects \$427.8 million for principal and interest on bonds outstanding on July 1, 2005, and additional funding of \$5.0 million for a proposed bond sale during fiscal 2007.

The Statement of General Long-Term Debt, which appears in the Appendix of this Budget, shows the status of the State's general obligation, bonded indebtedness as of June 30, 2005. The outstanding debt as of that date is \$3.1 billion. Also, there is \$0.7 billion of additional long-term debt authorized but unissued.

The Debt Service section of the budget shows the amounts necessary to

**DESCRIPTION OF BOND FUNDS  
FINANCED BY DEBT SERVICE APPROPRIATION  
PUBLIC BUILDINGS CONSTRUCTION BONDS—1968**

An amount of \$337,500,000 was authorized for the construction or reconstruction and rehabilitation of various institutions and the equipment necessary for the operation of the facilities. Among the types of institutional facilities included are mental health and mental retardation, correctional, higher education, including state and county colleges, vocational education, and facilities to establish a public broadcasting system within the State of New Jersey.

**WATER CONSERVATION BONDS—1969**

An amount of \$271,000,000 was authorized for planning, developing, constructing and maintaining facilities to provide adequate supplies of water for potable, industrial, commercial, irrigational and recreational purposes.

**HIGHER EDUCATION CONSTRUCTION BONDS—1971**

An amount of \$155,000,000 was authorized for the construction and rehabilitation of State institutions for higher education and for county colleges.

**STATE TRANSPORTATION BONDS—1968**

An amount of \$640,000,000 was authorized to improve the public transportation system of the State. Of this amount, not more than \$200,000,000 was for mass transportation facilities with the remainder for the improvement of highways.

**STATE RECREATION AND CONSERVATION LAND ACQUISITION BONDS—1971**

An amount of \$80,000,000 was authorized for the acquisition of land by the State and by municipalities through state grants for recreation and conservation purposes.

**STATE RECREATION AND CONSERVATION LAND ACQUISITION AND DEVELOPMENT BONDS—1974**

An amount of \$200,000,000 was authorized for the acquisition of land by the State and municipalities through state grants, for recreation and conservation purposes. In addition, this Act also provides funds for state and local development of acquired lands to expand and enhance their utilization for recreation and conservation purposes.

**CLEAN WATERS BONDS—1976**

An amount of \$120,000,000 was authorized for the conservation and development of water resources through construction of water supply and waste water treatment facilities.

**INSTITUTIONS CONSTRUCTION BONDS—1976**

An amount of \$80,000,000 was authorized to provide safe and humane facilities at institutions for the mentally ill, mentally retarded and incarcerated through construction of new facilities or rehabilitation and improvement of existing facilities. An amount of \$41,500,000 was allocated to the Department of Corrections and \$38,500,000 was allocated to the Department of Human Services.

**STATE MORTGAGE ASSISTANCE BONDS—1976**

An amount of \$25,000,000 was authorized for construction, rehabilitation and maintenance of housing for senior citizens and families of low and moderate income and to provide funds for second mortgage assistance.

**BEACHES AND HARBORS BONDS—1977**

An amount of \$30,000,000 was authorized for the restoration, maintenance and protection of the State's beaches and harbors.

**MEDICAL EDUCATION FACILITIES BONDS—1977**

An amount of \$120,000,000 was authorized for the issuance of general obligation bonds of the State to refinance revenue bonds issued in 1974 by the New Jersey Health Care Facilities Financing Authority. The refinancing reduced interest costs for the construction of the teaching hospital at the University of Medicine and Dentistry of New Jersey and provided substantial savings (\$25 million) which were made available for other needed medical facilities.

### Language Recommendations —

Notwithstanding the provision of any law, rule or regulation to the contrary, such sums as may be needed for the payment of interest and/or principal due from the issuance of any bonds authorized under the several bond acts of the State are appropriated and shall first be charged to the earnings from the investments of such bond proceeds and/or repayments of loans from the applicable bond funds established under such bond acts, and monies are appropriated from such bond funds for the purpose of paying interest and/or principal on the bonds issued pursuant to such bond acts. Where required by law, such sums shall be used to fund a reserve for the payment of interest and/or principal on the bonds authorized under the bond act. Furthermore, where required by law, the amounts appropriated herein are allocated to the projects heretofore approved by the Legislature pursuant to those bond acts.

There are appropriated such sums as may be needed for the payment of debt service administrative costs.

Subsequent to the refunding of bonds in the current fiscal year, the Director of the Division of Budget and Accounting is authorized to reallocate amounts appropriated hereinabove among the various debt service accounts to reflect the debt service savings of the refunding and to permit the proper debt service payments.
