Being a leader in the floor care industry for almost a century is hard work. It takes dedication, long hours, commitment, and, most of all, PRIDE. At Clarke, we take PRIDE in what we do and how we serve you. That's why we introduced the PRIDE PROGRAM, the standard by which all other customer service programs are measured.

60-Day Satisfaction Guarantee:

If a Clarke machine does not perform to our customer's satisfaction due to a defect in mechanical design, workmanship or parts, the customer can return the machine to their original place of purchase for a complete refund. All we ask is that you contact us and give us an opportunity to correct the issue.

Warranty registration is something that most customers never think twice about. We hope to change that. Our product registration card is not designed to capture a bunch of information for our marketing department. Instead we have designed our card to allow the end user the opportunity to give us immediate feedback on the quality of our product. Please take time to complete these as we consider your input to be valuable.

Quality Management System

Another component of the Pride program is our new Quality Management System. This system gives our customers the ability to communicate directly with our factory in Springdale, Arkansas. By visiting our web site customers can submit quality comments that will be immediately forwarded to our Quality Control Department. Those comments will be assigned to a QC manager who will review the comments and will then contact the customer who submitted the comments within two business days.

Clarke®
Focus® / BOOST™ Compact Rider Scrubber

Standard Equipment Includes

- * 28" or 34" Disc, or 28" Cylindrical, or 32" BOOST™ cleaning paths
- * On-board battery charger, pad drivers, 250AH batteries
- * Wall cushioned scrub deck movement
- * Conventional steering wheel or advanced technology *iDrive™ Joystick controlled Steering*
- * 30 gallon solution and recovery tanks
