Ticks

Blacklegged  
Ticks (aka  
Deer Ticks)

---

## Remove & Report Longhorned Ticks!

Longhorned Ticks

Ticks not to scale.

## **Protect Yourself. Protect New Jersey.**

When dealing with ticks:

- Remove ticks promptly to reduce the chance of disease transmission.
- Know that all ticks could carry disease, but only blacklegged ticks carry Lyme disease.
- See your doctor if you develop symptoms (rash, fever, muscle aches) after a tick bite.
- Protect yourself from tick-borne disease. Use personal precautions, including repellents and long pants.

**Report all suspected**

**Longhorned Ticks.**
