### Molluscan Bivalve Shellfish Only

# AQUATIC FARMER LICENSE APPLICATION I [2026]

This application serves as the OPERATIONAL PLAN for the NJDEP, Bureau of Marine Water Monitoring Commercial Shellfish Aquaculture Permit (N.J.A.C. 7:12-9.15) and Hatchery/Nursery Permit (N.J.A.C. 7:12-9.14).

ALL molluscan bivalve shellfish culturists within the State of New Jersey, including hatchery and nursery operators must complete the appropriate application pages as follows:

- 1. Grow-out operations (lease/riparian)- complete pages 2-6; sign page 9.
- 2. Hatchery operators- complete page 2 and page 7; sign page 9.
- 3. Nursery operators- complete page 2 and page 8; sign page 9.
- 4. Use one application for a nursery/hatchery and grow-out within the same company/applicant.
- 5. An application is only considered complete when all questions within the applicable pages are answered and the final page is signed by the applicant.

If you do NOT produce molluscan bivalve shellfish, use Application II.

#### **Shellfish Aquaculture Annual Harvest Report**

In accordance with the National Shellfish Sanitation Program (NSSP) 2019 Guide for the Control of Molluscan Shellfish, and pursuant to N.J.S.A. 50:1-31.1, a person who holds a commercial shellfish aquaculture permit shall submit an annual harvest report, in writing, on or before December 31 of each year, to the New Jersey Department of Environmental Protection. Each report must disclose, for the previous calendar year, the monthly estimated amount of shellfish harvested by the permittee from each aquaculture lease.

#### Instructions:

- Enter harvest estimates in each cell (e.g., "500 clams", "200 oysters")
- If no harvest occurred for the entire year on a lease, check the "No Harvest" box.

Reporting Year

• Blank cells will be considered no harvest.

NOTE: Supporting documentation may be submitted in lieu of completing the harvest report below. However, all
submitted information must adequately address the requirements outlined in this report.

Lease	No Harvest	Species	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec

### ACKNOWLEDGMENT

This document is the *formal application* for an Aquatic Farmer License from the New Jersey Department of Agriculture. As of September 19, 2016, the Aquatic Farmer License additionally serves as the Operational Plan for the NJDEP Commercial Shellfish Aquaculture Permit and the Hatchery/Nursery Permit. Depending on the size, nature, and location of the proposed aquaculture operation, additional permits beyond those listed in this application may be required by local, state, and/or federal regulatory agencies.

This Application will identify additional permits and will allow the NJDA to provide assistance in obtaining those permits. I understand that individual permits required by other regulatory authorities may require separate applications.

to cooperate with the New Jersey Department	quirements of the Aquatic Farmer License and I agree of Agriculture in the development of appropriate growth and well-being of the New Jersey aquaculture
