The Role of Maternal Health in Infant and Early Childhood Mental Health

Hosted by: The Center for Great Expectations

January 20, 2023, 2:00-3:00 PM

Link: <https://cge.zoom.us/j/81762854917>

Join Carolyn Flynn, from The Center for Great Expectations, for a 60-minute overview on Early Relational Health, considered to be the ultimate prevention. See how this approach is defined as the state of emotional wellbeing that grows from the positive emotional connection between babies and toddlers and their parents, supported by safe, stable, and nurturing relationships. Learn how human development occurs within context of relationships and how the caregiver and infant/child are a co-regulatory system, impacted by broader systems, policy and community.

Carolyn Flynn, MA, LPC, CD is the Director of Early Relational Health at The Center for Great Expectations and was vital in the formation and founding of START [www.cge-nj.org/programs/s-t-a-r-t], our community-based home visitation program with two sites in Newark and Bridgewater. Carolyn's extensive training, background as a certified doula and passion for our work is now being applied across CGE's 6-part continuum of care to strengthen and solidify our role as a leader in the field of Early Relational Health. With long-term partners Rutgers University and others, Carolyn is ensuring the CGE continues to transform and improve the landscape of maternal healthcare.
