ALL ABOUT NEW JERSEY!

Spinach is a cool season crop; it grows in the spring and fall in New Jersey- April- June and September-November.

HOW DOES IT GROW:

Spinach likes to be directly seeded into the ground and it grows into a leafy green which is the part of the plant we eat. Spinach loves the cooler weather and if it lives through a frost the legend is that it actually becomes sweeter! Here are some tips on growing [spinach](#).

FUN FACTS:

Popeye, a cartoon, was introduced in 1929 and U.S. spinach growers credited him with a 33% increase in domestic spinach consumption. It was a welcome boost especially during the depression era. Popeye was very strong because he ate spinach every day - that was the message he delivered in each cartoon, for many years, spinach was the third most popular children's food after turkey & ice cream.
