RULE ADOPTIONS

AGRICULTURE

DIVISION OF PLANT INDUSTRY
Importation of Plants and Plant Material
Readoption: N.J.A.C. 2:17
Proposed: March 21, 2022, at 54 N.J.R. 469(a).
Adopted: May 25, 2022, by the State Board of Agriculture and
Douglas H. Fisher, Secretary, Department of Agriculture.
Filed: June 13, 2022, as R.2022 d.088, without change.
4:7-4 through 14 and 4:7-15 through 35.
Effective Date: June 13, 2022.
Expiration Date: June 13, 2029.

Summary of Public Comment and Agency Response:
The Department of Agriculture received comments from a Jean Public in response to the notice of the proposed readoption of N.J.A.C. 2:17.

COMMENT: Jean Public states that she does not support the proposed readoption because she believes it is time to end the supply of milk to school children. She complains that cows make milk for their calves and that their milk is not for children. She states that there are better ways to get protein to children, and lactose intolerance among a significant portion of the population means that children should get water, rather than milk, which in her view would cost less and be healthier. She also criticizes the treatment of cows by the dairy industry.

RESPONSE: The commenter’s concerns are beyond the scope of this rulemaking. The serving of milk to students by schools is unaffected by the regulations proposed for readoption. The readoption of N.J.A.C. 2:55 merely requires that, pursuant to N.J.S.A. 18A:18A-6, when schools purchase milk, the vendors of school milk buy a minimum amount of their milk from New Jersey producers.

Federal Standards Statement
Executive Order No. 27 (1994) and P.L. 1995, c. 65, require State agencies that adopt, readopt, or amend State rules exceeding any Federal standards or requirements to include in the rulemaking document a comparison with Federal law. As related to this chapter, the rulemaking requirements are dictated by the Public Schools Contracts Law, specifically N.J.S.A. 18A:18A-6. Although 7 U.S.C. § 608C and 7 CFR Part 1001 establish minimum milk purchasing requirements, the readoption of N.J.A.C. 2:55 does not mandate any minimum or maximum milk prices for the school milk contracts. Rather, the rules merely require vendors of school milk to buy a minimum amount of milk from New Jersey producers pursuant to N.J.S.A. 18A:18A-6. Therefore, this Federal requirement is unaffected by these rules. Several Federal programs, however, do have procurement requirements for schools purchasing milk for their Federal programs. The Special Milk Program for Children, 7 CFR 215.6, the School Lunch Program, 42 U.S.C. § 1760 and 7 CFR 210.21, and the Child and Adult Care Food Program, 7 CFR 226.22, all require milk procured for the programs to be milk-produced in the United States. The readopted rules meet, but do not exceed, these Federal requirements. As the readoption of N.J.A.C. 2:55 does not exceed any Federal standards, a Federal standards analysis is not required.

Full text of the readopted rules can be found in the New Jersey Administrative Code at N.J.A.C. 2:17.

DIVISION OF MARKETING AND DEVELOPMENT
School Milk Purchase Regulations
Readoption: N.J.A.C. 2:55
Proposed: March 21, 2022, at 54 N.J.R. 470(a).
Adopted: May 25, 2022, by the State Board of Agriculture and
Douglas H. Fisher, Secretary, Department of Agriculture.
Filed: June 9, 2022, as R.2022 d.086, without change.
Effective Date: June 9, 2022.
Expiration Date: June 9, 2029.

Summary of Public Comment and Agency Response:
No comments were received.
