

**NOTICE OF FILING OF RATE INCREASE
AND PUBLIC HEARINGS TO CUSTOMERS OF
ATLANTIC CITY ELECTRIC COMPANY**

**In the Matter of the Petition of Atlantic City Electric Company for Approval of Rate
Adjustments Pursuant to Its Infrastructure Investment Program (11/2020)
BPU Docket No. ER20110694**

PLEASE TAKE NOTICE that, on November 2, 2020, Atlantic City Electric Company ("ACE" or "Company"), a New Jersey public utility, filed a petition with the New Jersey Board of Public Utilities ("Board" or "BPU"), in BPU Docket No. ER20110694, seeking the Board's approval of proposed changes to rates to provide for cost recovery of certain costs associated with the Company's Infrastructure Investment Program ("IIP") ("Petition"). ACE's IIP was established pursuant to the Board's Infrastructure Investment Program regulations, N.J.A.C. 14:3-2A.1 et seq. and is focused on accelerated investments to bolster electric distribution system reliability, storm resiliency, and safety. The Company's IIP was authorized by a Board Order issued on April 18, 2019, effective April 28, 2019, in BPU Docket No. EO18020196. The Order approved an IIP consisting of \$96.46 million, plus associated Allowance for Funds Used During Construction, in investments to be recovered pursuant to a cost recovery mechanism known as Rider IIP. The investments are to be made over the four-year period beginning July 1, 2019 through June 30, 2023.

ACE's Rider IIP provides for recovery of the annual revenue requirement associated with IIP projects that have been completed and placed into service during specific review periods. The Company requested that the Rider IIP rates set out below become effective for service rendered on and after April 1, 2021. If the Board approves this request, the monthly bill for a typical residential customer (using approximately 679 kWh/month) will increase by \$0.25 or approximately 0.19%. The exact amount that your bill will increase depends upon the amount of electricity you use. A chart is included with this notice to help residential customers assess the impact of the proposed new rates on their monthly bills.

The Company filed the following changes to its existing rates with the BPU. Any final rate adjustments found by the Board to be just and reasonable may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A. 48:3-4, and for other good and legally sufficient reasons, to any class or classes of customers of the Company. Therefore, the described changes may increase or decrease based upon the Board's decision. The following table demonstrates the Company's proposed rates based upon forecasted and actual data through December 31, 2020:
