

**NOTICE TO NEW JERSEY NATURAL GAS CUSTOMERS
I/M/O THE PETITION OF NEW JERSEY NATURAL GAS
COMPANY FOR APPROVAL OF THE COST RECOVERY
ASSOCIATED WITH ENERGY EFFICIENCY PROGRAMS**

DOCKET NO. GR22060371

NOTICE OF FILING AND PUBLIC HEARINGS

TO OUR CUSTOMERS:

PLEASE TAKE NOTICE that on June 1, 2022 New Jersey Natural Gas (“NJNG” or the “Company”) filed a Petition with the New Jersey Board of Public Utilities (“Board”) seeking approval to implement a change to its Energy Efficiency (“EE”) Rider F through which it recovers costs associated with EE Programs (“Programs”) offered through Board-approved the SAVEGREEN™ Project. The current programs provide a broad range of EE offerings for residential, commercial, and industrial customers, including special resources for low to moderate income customers. The Programs include discounted energy saving measures, grants, financing opportunities, technical assistance and other resources to help address barriers to saving energy and making investments in energy efficiency improvements more accessible for all customers. Pursuant to Board Orders dated July 17, 2009 (Docket Nos. EO09010056 and EO09010057), September 24, 2010 (Docket No. GO10030225), January 18, 2012, (Docket No. GR11070425), June 21, 2013 (GO12070640), July 22, 2015 and June 29, 2016 (Docket No. GO14121412), September 17, 2018 (Docket No. GO18030355), and March 3, 2021(Docket Nos. QO19010040 and GO20090622) NJNG is authorized to recover all reasonable and prudent costs associated with the SAVEGREEN programs. The approved and proposed costs include funds for grants, customer incentives and the associated incremental Operations and Maintenance expenses, along with associated carrying costs.

Rider F is applied in a manner consistent with existing components and processes of the Board-approved Societal Benefits Charge applicable to all jurisdictional throughput. The current after-tax EE charge for natural gas customers is \$0.0417 per therm, including New Jersey Sales and Use Tax (“SUT”). The Company has requested that the Board approve an increase of \$0.0038 per therm to the “EE Programs Established 2010-2018” component and a decrease of \$0.0031 per therm to the “EE Programs Established 2021-Present” component for a total increase of \$0.0007 per therm effective October 1, 2022. If approved, the after-tax EE charge will increase to \$0.0424 per therm, including SUT. The change results in an overall increase of \$0.07, or 0.1 percent, on a 100-therm residential bill.

The proposed statewide charges for natural gas customers are as follows:

	Present	Present (Incl. Sales and Use Tax)	Proposed	Proposed (Incl. Sales and Use Tax)
EE Programs Established 2010- 2018	\$0.0191	\$0.0204	\$0.0227	\$0.0242
EE Programs Established 2021-Present	\$0.0200	\$0.0213	\$0.0171	\$0.0182
Total EE	\$0.0391	\$0.0417	\$0.0398	\$0.0424

The impact of the Company’s filing, requested to be effective on October 1, 2022 or as of the effective date of the final Board Order in this proceeding, on a typical residential customer (both heat and non-heat), a typical general service small customer and a typical general service large customer on a monthly basis is estimated to be as follows based on the usage levels shown below:

Customer Type	Therm Level (Usage)	Total Bill		Net Dol- lar Increase	Percent Increase
		Monthly Bill as of May 1, 2022	Proposed After-tax Monthly Bill		
Residential Heat Sales	100	\$ 136.21	\$ 136.28	\$ 0.07	0.1%
Residential Non-Heat Sales	25	\$ 39.81	\$ 39.83	\$ 0.02	0.1%
General Service Small	100	\$159.11	\$ 159.18	\$0.07	0.04%
General Service Large	1200	\$ 2,216.96	\$ 2,217.80	\$0.84	0.04%

The Board has the statutory authority to establish the EE rate at levels it finds just and reasonable pursuant to *N.J.S.A. 48:2-21*. Therefore, the Board may establish the new rate at levels other than those proposed by NJNG and the impact on a customer’s bill may vary from the information provided above.
