BY COMMISSIONER FIORDALISO

On January 18, 2012, the Board of Public Utilities ("Board"), in response to Governor Christie's conditional veto of A3991/S2978, initiated "a review of the safety implications of the installation and maintenance of solar and photovoltaic electric generation equipment by electric public utilities in the "neutral" zone on utility poles...." Pursuant to the Board's Order, I have been named the presiding Commissioner in this matter with authority to issue a schedule in this matter and control the conduct of this review.

Therefore, to expedite this review, I HEREBY ISSUE the attached procedural schedule. All requests to be included on the service list must be filed with the Board's Secretary and sent to the parties on the attached list by February 6, 2012 consistent with the attached schedule. All such requests should include an e-mail address so that an e-service list can be compiled by Board staff and provided to interested parties prior to the due date for comments. All further filings in this matter shall then be sent to all parties on that list using electronic mail with a hard copy sent to the Board's Secretary.

This ruling is provisional and subject to ratification or other alteration by the Board as it deems appropriate during the proceeding in this matter.

DATED: 1/20/12

  
 JOSEPH L. FIORDALISO  
 COMMISSIONER
