ORDER ACCEPTING SETTLEMENTS

DOCKET NOS GS07121030K, et al  
(see attached Appendix)

(SERVICE LIST ATTACHED)

**BY THE BOARD:**

The Board of Public Utilities ("Board") has jurisdiction to oversee and enforce the provisions of the Underground Facility Protection Act ("the Act") pursuant to the provisions set forth in N.J.S.A. 48:2-73 et seq. The primary purpose of the Act is to establish the One-Call Damage Prevention System for the protection of underground facilities that are used for the conveyance of water, forced sewage, telecommunications, cable television, electricity, oil, petroleum products, gas, optical signals, traffic control, or for the transportation of a hazardous liquid. In declaring its findings and the purpose of the Act, the Legislature stated, in pertinent part:

that damage to underground facilities caused by excavation and the discharge of explosives poses a significant risk to the public safety; that such damage to underground natural gas facilities poses a substantial risk to the public safety; and that the implementation of a comprehensive One-Call Damage Prevention System can substantially reduce the frequency of damage caused by these activities.

The Legislature therefore determines that it is in the public interest for the State to require all operators of underground facilities to participate in a One-Call Damage Prevention System and to require all excavators to notify the One-Call Damage Prevention System prior to excavation or demolition. N.J.S.A. 48:2-74.

The Act defines “excavator” as “any person performing excavation or demolition,” while the term “operator” is defined as “a person owning or operating, or controlling the operation of, an underground facility . . .” N.J.S.A. 48:2-75. The One-Call Damage Prevention System (“the System”) coordinates communication and responsive action between these two groups of persons. N.J.S.A. 48:2-80, -82.

The Act subjects violators of its provisions to civil penalties of not less than \$1,000 and not more than \$2,500 per violation per day. N.J.S.A. 48:2-88. Violation of a provision relating to natural gas or hazardous liquid underground pipelines or distribution facilities shall subject the violator to civil penalties not to exceed \$25,000 per day and not to exceed \$500,000 for any related series of violations. In addition, the violator may be assessed the cost of any Board investigation, inspection or monitoring survey which leads to the establishment of a violation and for the reasonable costs of preparing and litigating the matter. N.J.S.A. 48:2-86(b)(2).

Following reports of failure to call the System prior to commencing excavation or demolition activities, failure to hand dig and locate facilities, failure to use reasonable care, or reports of failure to mark out underground facilities or properly mark them, Board Staff contacted the entities listed on the Appendix and informed them of the date and location of the alleged violations, also listed on the Appendix.

In an attempt to resolve these matters, each excavator or operator listed on the Appendix has submitted an Offer of Settlement to the Board for its consideration. Each such Offer of Settlement is summarized in the Appendix. The Offers of Settlement were made available to the Board to review. After consideration of these matters, the Board HEREBY FINDS these Offers of Settlement to be reasonable and in the public interest, and HEREBY ACCEPTS these Offers of Settlement in full satisfaction of the above referenced alleged violations of the Act.

The Investigation of these matters and the Board’s acceptance thereof is part of a comprehensive underground damage prevention program comprised of enforcement, outreach, education, advertising and other activities designed to minimize risk to underground utility facilities throughout the State. The program is recognized by our Federal counterparts as being highly effective in reducing damage prevention.

By acceptance of the various Offers of Settlement and the timely payment thereof, the Excavator or Operator has waived any rights to a hearing, and the Board has waived any rights to bring an action for civil penalties as permitted by the Underground Facility Protection Act in connection with the above referenced alleged violations of the Act. It must also be noted that the acceptance of the Offers of Settlement are for settlement purposes only and apply strictly to the specific incidents set out in the Appendix. This acceptance is without prejudice as to the

position of the State of New Jersey or any agency or subdivision thereof if other violations are present, now or in the future.

**NO FURTHER ACTION BY THE RESPONDENTS IS REQUIRED**
