OFFICE OF CABLE TELEVISION
AND TELECOMMUNICATIONS

IN THE MATTER OF THE PETITION OF COMCAST)
OF NEW JERSEY, LLC, FOR A CERTIFICATE OF)
APPROVAL TO CONTINUE TO CONSTRUCT,)
OPERATE, AND MAINTAIN A CABLE TELEVISION)
SYSTEM IN AND FOR THE TOWNSHIP OF)
STAFFORD, COUNTY OF OCEAN, STATE OF NEW)
JERSEY) DOCKET NO. CE23100739

Parties of Record:

Stan Barrett, Esq., Brach Eichler LLC, on behalf of Comcast of New Jersey, LLC
Susan Farrell, Clerk, Township of Stafford, New Jersey

BY THE BOARD:

On April 8, 1981, the New Jersey Board of Public Utilities ("Board") granted Cable Haven TV, Inc. a Certificate of Approval ("Certificate"), in Docket No. 798C-6523, for the construction, operation and maintenance of a cable television system in the Township of Stafford ("Township"). Due to a series of Board approved transfers, the Certificate was held by Clear Cablevision Inc. d/b/a Adelphia Cable ("Adelphia"). On October 7, 1991, the Board issued a Renewal Certificate of Approval ("Renewal Certificate") to Adelphia in Docket No. CE91010047. Through a series of subsequent transfers, with the required Board approvals, the current holder of the Renewal Certificate is Comcast of New Jersey, LLC ("Petitioner"). On February 4, 2008, the Board issued the Petitioner a Renewal Certificate in Docket No. CE07050296. Although, by its terms, the Petitioner's above referenced Certificate expired on April 8, 2021, the Petitioner is authorized to continue to provide cable television service to the Township pursuant to N.J.S.A. 48:5A-25, pending disposition of proceedings regarding the renewal of its Certificate.

The Petitioner filed an application for the renewal of its municipal consent with the Township on July 8, 2020, pursuant to N.J.S.A. 48:5A-23 and N.J.A.C. 14:18-13.1 to 9. On June 27, 2023, the Township, after public hearing, adopted an ordinance granting renewal municipal consent to the Petitioner ("Ordinance"). The Petitioner formally accepted the terms and conditions of the Ordinance on June 28, 2023. On October 17, 2023, pursuant to N.J.S.A. 48:5A-16, the Petitioner filed with the Board for a renewal of its Certificate for the Township.

DISCUSSION AND FINDINGS

The Board has reviewed the application for municipal consent, the Ordinance and the petition for a Renewal Certificate. Based upon this review and the recommendation of the Office of Cable Television and Telecommunications, the Board **HEREBY FINDS** the following:

1. The Petitioner possesses the requisite legal, character, financial, and technical qualifications for the awarding of a Certificate. Further, these qualifications were reviewed by the Township in conjunction with the municipal consent process.
2. The design and technical specifications of the system shall ensure that the Petitioner provides safe, adequate, and proper service.
3. The Petitioner has represented that all previously required construction within the franchise territory is complete.
4. The franchise period as stated in the Ordinance is ten (10) years, pursuant to N.J.S.A. 48:5A-19 and 25. The Board finds this franchise period reasonable.
5. The Township has reserved the right to review the Petitioner's performance with regard to the Ordinance. In the event that the Township shall find that the Petitioner has not substantially complied with the material terms and conditions of the Ordinance, the Township shall have the right to petition the Board for appropriate administrative action, pursuant to N.J.S.A. 48:5A-47, provided, however, that the Township shall first have given the Petitioner written notice of all alleged instances of non-compliance and an opportunity to cure the same within ninety (90) days of that notification. If, after such reasonable notice and opportunity to cure, the Petitioner has not cured any such findings of non-compliance, the Township may petition the Board for appropriate administrative action, including modification and/or termination of the Certificate.
6. The Petitioner shall proffer service to any residence along any public right-of-way in the Primary Service Area, at no cost beyond standard and non-standard installation charges as set forth in the Petitioner's application. For any extension outside the Primary Service Area, the Petitioner shall utilize the line extension policy attached to the Certificate (Appendix "I") with a homes per mile ("HPM") figure of thirty-five (35).
7. The Petitioner shall maintain an informational schedule of prices, terms and conditions for unregulated service, and promptly file any revisions thereto.
8. Pursuant to statutory requirements, the Ordinance specifies a complaint officer to receive and act upon complaints filed by subscribers in the Township. In this case, it is the Office of Cable Television and Telecommunications. All complaints shall be received and processed in accordance with any applicable rules.
9. During the term of this franchise, and any renewal thereof, the Petitioner shall maintain a local business office or agent for the purpose of receiving, investigating and resolving complaints regarding the quality of service, equipment malfunctions, and similar matters. The Petitioner currently maintains a local office located at 451 Martin Truex Jr. Boulevard, Manahawkin, New Jersey.

10. The franchise fee to be paid to the Township is specified to be two percent (2%) of the Petitioner's gross revenues from all recurring charges in the nature of subscription fees paid by subscribers for its cable television reception service in the Township or any additional amount required by N.J.S.A. 48:5A-30. Additional regulatory fees shall be paid to the State in an amount not to exceed two percent (2%) of Petitioner's gross operating revenues derived from intrastate operations. The Board finds these fees to be reasonable.
11. The Petitioner shall provide public, educational, and governmental ("PEG") access channels and facilities in accordance with its renewal application and the Ordinance. Specifically, the Petitioner shall provide one (1) dedicated government access channel, one (1) local access channel, and two (2) educational access channels.
12. Within eighteen (18) months after the effective date of this Certificate, and upon written request from the Township, the Petitioner will make available to the Township one (1) educational and governmental ("E/G") access channel in high definition ("HD") format.
13. The Township or its designated access provider shall be responsible for providing the HD PEG signal to the demarcation point at the designated points of origination in the HD digital format compatible with the Petitioner's equipment. The Township or its designated access provider is responsible for acquiring all equipment necessary to produce programming in HD.
14. The Petitioner shall upgrade, as necessary, the return origination capability and provide the necessary transmission equipment including HD encoders or its equivalent outside the demarcation point at the origination location along with the other locations described in the Ordinance or similar distribution facilities necessary to deliver the access channel in HD format to subscribers.
15. The Township acknowledges that HD programming may require special viewer equipment and subscription to advanced services and that, by agreeing to make PEG channels available in HD format, the Petitioner shall not be required to provide free HD equipment to subscribers, or for municipal and educational cable service accounts, nor modify its equipment or pricing policies in any manner, except as otherwise expressly provided for in the Ordinance. The Township acknowledges that not every subscriber may be able to view HD PEG programming and additional costs may be involved in the reception of HD programming.
16. Within six (6) months of the effective date of this Certificate, the Petitioner shall provide the Township a one (1) time E/G Access Capital Grant of \$45,000 to meet the E/G Access capital needs of the community. Upon completion, the Petitioner shall submit proof to the Office of Cable Television and Telecommunications indicating its compliance with this provision.
17. The Township and the Petitioner agree that the costs for equipment or upgrades to the Return Lines qualify as capital costs for PEG facilities and therefore are an appropriate use of revenues derived from the E/G Capital Grants provided for in the franchise.

18. The Petitioner shall have the right to reclaim the dedicated government standard definition ("SD") access channel upon the launch of the HD access channel.¹
19. The Petitioner will provide, at no cost, basic cable service to one (1) outlet in the Township Hall, First Aids, Fire Departments, Community Center, and Library provided that the building is within 200 feet of active cable distribution plant or through customer owned conduit.² Each additional outlet installed, if any, shall be paid for on a material(s) plus labor basis by the Township requesting service.³
20. The Petitioner will provide, at no cost, basic cable service to one (1) outlet in the Township's public and private, elementary, intermediate and secondary schools, provided the school building is within 200 feet of active cable distribution plant or through customer owned conduit.⁴ Each additional outlet installed, if any, shall be paid for on a material(s) plus labor basis by the school requesting service.

Based upon these findings, the Board **HEREBY CONCLUDES**, pursuant to N.J.S.A. 48:5A-17(a) and 28(c), that the Petitioner has the municipal consent necessary to support the petition; that such consent and issuance thereof are in conformity with the requirements of N.J.S.A. 48:5A-1 to 64; that the Petitioner has complied or is ready, willing, and able to comply with all applicable rules and regulations imposed by or pursuant to State and federal law as preconditions for engaging in the proposed cable television operations; that the Petitioner has sufficient financial and technical capacity, and meets the legal, character and other qualifications necessary to construct, maintain, and operate the necessary installations, lines, and equipment; and that the Petitioner is capable of providing the proposed service in a safe, adequate and proper manner.

Therefore, the Petitioner is **HEREBY ISSUED** this Renewal Certificate as evidence of Petitioner's authority to construct and operate a cable television system within the entirety of the Township.

This Renewal Certificate is subject to all applicable State and federal laws, the rules and regulations of the Office of Cable Television and Telecommunications, and any such lawful terms, conditions, and limitations as currently exist or may hereafter be attached to the exercise of the privileges granted herein. The Petitioner shall adhere to the operating standards set forth by the Federal Communications Commission's rules and regulations, 47 C.F.R. § 76.1 et seq., including, but not limited to the technical standards 47 C.F.R. § 76.601 through § 76.630. Any modifications to the provisions thereof shall be incorporated into this Certificate.

Failure to comply with all applicable laws, rules, regulations, and orders of the Board or the Office

¹ On September 30, 2024, the Petitioner confirmed that the channel to be reclaimed by the Petitioner as stipulated in the Ordinance is the dedicated government access channel that will be available to the Township.

² On December 21, 2023, the Petitioner confirmed that the provision of cable television service to the municipal service buildings will be provided to the Township as stipulated in the Ordinance, at no cost.

³ On September 30, 2024, the Petitioner confirmed that the provision in Section 14a. of the Ordinance contains an error regarding additional outlets being paid for by the school requesting service. This provision pertains to municipal owned buildings and should therefore specify the language contained herein.

⁴ On December 21, 2023, the Petitioner confirmed that the provision of cable television service to the schools will be provided to the Township as stipulated in the Ordinance, at no cost.

Agenda Date: 4/23/25
Agenda Item: IIID

of Cable Television and Telecommunications and/or the terms, conditions, and limitations set forth herein may constitute sufficient grounds for the suspension or revocation of this Certificate.

This Renewal Certificate is issued on the representation that the statements contained in the Petitioner's applications are true, and the undertakings therein contained shall be adhered to and be enforceable unless specific waiver is granted by the Office of Cable Television and Telecommunications pursuant to the authority contained in N.J.S.A. 48:5A-1 to 64.

This Certificate shall expire on April 8, 2031.

This Order shall be effective on April 30, 2025.

in the files of the Board of Public Utilities.

APPENDIX "I"
Office of Cable Television and Telecommunications
Line Extension Policy

Company: Comcast of New Jersey, LLC
Municipality: Township of Stafford, County of Ocean

A cable operator is required to absorb the cost of extensions to the system in the same proportion that the extension is to the remainder of the system.

Actual subscribers served by the extension are required to absorb the remainder of the cost.

If new subscribers are added to the extension, the cost is adjusted and those who previously paid receive an appropriate rebate.

1. $\frac{\text{\# of homes in extension}}{\text{mileage of extension}} = \text{homes per mile ("HPM") of extension}$
2. $\frac{\text{HPM of extension}}{\text{Minimum HPM that company actually constructs in the system*}} = \text{ratio of the density of the extension to the minimum density that the company constructs in the system ("A")}$
3. $\text{Total cost of building the extension times "A"} = \text{company's share of extension cost}$
4. $\text{Total cost of building extension less company's share of extension cost} = \text{total amount to be recovered from subscribers}$
5. $\frac{\text{Total amount to be recovered from subs}}{\text{Total subscribers in extension}} = \text{each subscriber's share}$

In any case, the company shall extend its plant along public rights of way to:

1. All residences and businesses within 150 aerial feet of the operator's existing plant at no cost beyond the normal installation rate.
2. All residences and businesses within 100 underground feet of the operator's plant at no cost beyond the normal installation rate.

* The minimum HPM that the company actually constructs in the system or municipality is the minimum number of homes that the company has historically constructed at its own cost. This is a function of the operator's breakeven point and its rate of return. Unbuilt systems will use the primary service area rather than construction.

The operator's installation policies shall apply to construction beyond the public right of way.

Detailed accounting or financial information to support the minimum HPM shall be supplied to the Office for its approval in such form as required. The minimum HPM shall be updated as appropriate.

When a request for service is received, and unless good cause is shown, cable companies shall:

1. Provide a written estimate within thirty (30) days of such a request.
2. Begin construction within sixty (60) days of receipt of any deposit monies from potential subscribers.
3. Complete construction within six (6) months of receipt of any deposit monies from potential subscribers.
4. Inform each home passed along the extension of the potential costs for subscribers.

Subscribers who pay for an extension shall be entitled to rebates in the following manner:

1. If the company acquires new subscribers subsequent to the initial calculation of step 5 above, the formula will be adjusted and those who have previously paid for the extension will be entitled to an appropriate rebate. In no event shall the amount of the rebate exceed the subscriber's contribution.
2. The company shall keep accurate records of the cost of the extension, the amounts paid by subscribers, and any appropriate adjustments.
3. The company shall notify subscribers in the extension of their rights and responsibilities concerning the extension.
4. Once an individual dwelling has paid its share of the extension cost, future reconnections or installations shall be made at the company's standard rates.
5. After a period of five (5) years from the installation of the first dwelling unit in the extension, no further adjustments shall be made. Installations after five (5) years shall be at the company's standard rate.
6. Once a subscriber is installed, that person shall not normally be entitled to a refund of any monies paid for the installations, except in accordance with the rebate procedure outlined in this policy.

Definitions

Primary Service Area

The Primary Service Area ("PSA") can be an entire municipality, but in many instances the PSA is a limited area within a community outside of which a line extension policy may apply. The PSA is depicted by a franchise map and narrative, presented and recorded during the franchise proceedings. It normally remains a fixed geographic area throughout the life of the franchise.

Line Extension Survey

Potential subscribers residing outside the PSA who request service are entitled to an estimate of their share of the cost to secure service. When conducting a survey and estimating costs, a cable company should factor in all potential subscribers who could practicably be included in the extension and give consideration to apparent residential construction in areas contiguous to the proposed extension.
