COMPANY CUSTOMERS**

**In the Matter of Rockland Electric Company's Annual Societal Benefits Charge Filing  
Reconciling Costs for 12 Months Ending July 31, 2025 and Estimating Costs for 12 Months  
Ending July 31, 2026**

BPU Docket No. ER25040183

**PLEASE TAKE NOTICE** that, on April 1, 2025, Rockland Electric Company (“RECO” or “Company”) made an Annual Compliance Filing with supporting documentation requesting that the New Jersey Board of Public Utilities (“BPU” or “Board”) approve increases in RECO’s Societal Benefits Charge (“SBC”) (“April 2025 Filing”). The SBC allows the Company to recover costs associated with RECO’s demand-side management (“DSM”) programs, the Clean Energy Program, the Universal Service Fund and Lifeline programs, and the Company’s uncollectible expenses. The SBC is adjusted annually pursuant to RECO’s tariff. RECO proposed to increase only the SBC components pertaining to the DSM, the Clean Energy Program component, and the uncollectible expense programs (“Component Programs”).

By the April 2025 Filing, RECO proposed to increase the overall Component Programs rate to 0.4121¢/kilowatt-hour (“kWh”), including Sales and Use Tax (“SUT”), from its existing rate of 0.3825¢/kWh, including SUT, for all classes of customers effective August 1, 2025.

Subsequent to the April 2025 Filing, the overall Component Programs rate increased to 0.4111¢/kWh on June 1, 2025, as a result of the Company’s approved 2024 SBC Surcharge filing. In addition, in response to a discovery request, on July 24, 2025, RECO provided updated schedules based on actual data through June 30, 2025 and estimated data based on the Fiscal Year 2026 Clean Energy Fund budget. As a result of the inclusion of the June 1, 2025 SBC Component rate and the July 24, 2025 update, the Company proposes to increase the overall Component Programs rate from 0.4111¢/kWh to 0.4138¢/kWh, resulting in a combined proposed SBC rate of 0.7107¢/kWh, including SUT.

The effect of the proposed SBC changes on typical residential electric bills, if approved by the Board, is illustrated below.

| <b>Residential Electric Service</b> |                        |                         |          |         |

- (1) Based upon Basic Generation Service Residential Small Commercial Pricing (BGS-RSCP) and Delivery Rates in effect July 1, 2025 and assumes that the customer receives BGS-RSCP service from RECO.
- (2) Same as (1) except includes change in the SBC.

Based on the updated April 2025 Filing, the statewide average residential customer using 808 kilowatt hours per summer month, and 7,800 kilowatt hours on an annual basis, would see an annual bill increase of \$0.24 from \$2,030.64 to \$2,030.88, or approximately 0.01%. The percentage change applicable to specific customers will vary according to the customer's service classification and the usage. Any relief found by the Board to be just and reasonable may be allocated by the Board to any class or classes of customers in any rate or schedule as the Board may determine.

The Board has the statutory authority pursuant to N.J.S.A. 48:2-21, to establish the SBC at levels it finds just and reasonable. Therefore, the Board may establish the SBC at levels other than those proposed by RECO. As a result, the described charges may increase or decrease based upon the Board's decision.
