

NOTICE TO PUBLIC SERVICE ELECTRIC AND GAS COMPANY ELECTRIC CUSTOMERS

In the Matter of the Petition of Public Service Electric and Gas Company for Approval of Changes to its Electric Conservation Incentive Program (2026 PSE&G Electric CIP Rate Filing)

Notice of Filing and Notice of Public Hearings

BPU Docket No. ER26030086

PLEASE TAKE NOTICE that, on March 18, 2026, Public Service Electric and Gas Company (“PSE&G” or “Company”) filed a petition and supporting documentation with the New Jersey Board of Public Utilities (“Board”) seeking Board approval for adjustments in the cost recovery associated with its Electric Conservation Incentive Program (“ECIP” or “Program”) (“Petition”).

By Order dated September 23, 2020, the Board approved the Clean Energy Future – Energy Efficiency Program in Docket Nos. GO18101112 and EO18101113 (“Order”). By the Order, the Board approved a Conservation Incentive Program (“CIP”), allowing the Company to recover sales revenue from the potential decrease in customer usage resulting from the Company’s energy efficiency programs. Recoveries under the ECIP are subject to limitations based upon the Company’s earnings and based upon offsetting savings achieved by the Company in the costs of Basic Generation Service.

Under the Company’s proposal, PSE&G seeks Board approval to recover approximately \$5.7 million as a result of lower revenue per customer compared to an approved baseline. The deferral consists of \$14.7 million of non-weather-related lost revenue offset by a refund of \$11 million that is due to customers because of increased revenues resulting from warmer-than-normal weather and adding in \$31.4 million of under-recovered margin recovery from the Company’s prior ECIP period.

As the Company asserted that there is no limit on non-weather recovery, there is no projected carry-forward balance to the next ECIP period at this time. The CIP deferral is calculated by an applicable rate schedule, and thus, some rate schedules can receive a credit while others a charge based on the difference between actual revenue and the baseline by rate schedule.

The proposed Electric CIP charges, if approved by the Board, are shown in Table #1.

The approximate effect of the proposed impact on typical electric residential average monthly bills, if approved by the Board, is illustrated in Table #2.

Based on the filing, a typical residential electric customer using 683 kWh in a summer month and 558 kWh in an average month (6,700 kWh annually) would see an increase in the average monthly bill from \$157.97 to \$158.09, or \$0.12 or approximately 0.1%.

The Board has the statutory authority pursuant to N.J.S.A. 48:2-21 to establish the ECIP charge at levels it finds just and reasonable. Therefore, the Board may establish the ECIP charge at levels other than that proposed by PSE&G. As a result, the described charge may increase or decrease based upon the Board’s decision.

PSE&G’s costs addressed in the Petition will remain subject to audit by the Board, and Board approval shall not preclude or prohibit the Board from taking any such actions deemed appropriate as a result of any such audit.

Any assistance required by customers in ascertaining the impact of the proposed rate increase will be provided by the Company upon request.

A copy of this Notice is being served upon the clerk, executive, or administrator of each municipality and county within the Company’s service territory. The Petition is available for review online at the PSEG website at <http://www.pseg.com/pseandgfilings> and was provided to the New Jersey Division of Rate Counsel (“Rate Counsel”), who will represent the interests of all PSE&G customers in this proceeding. The Petition may also be viewed on the Board’s website, <https://publicaccess.bpu.state.nj.us>, where you can search by the above-captioned docket number. The Petition and Board file may also be reviewed at the Board located at 44 South Clinton Avenue, 1st Floor, Trenton, NJ, with an appointment. To make an appointment, please call (609) 913-6298.
