### **Social Impact**

The rules proposed for readoption with amendments and new rules will have a positive social impact in that they will continue and clarify the Board's procedures for contested and uncontested proceedings and treatment of information claimed as confidential. The proposed amendments, in addition to conforming to statutory changes, would update the rules to conform to current Board practices. These rules are designed to ensure orderly practice and procedure before the Board by establishing guidelines and specific requirements for the filing of petitions requesting relief from the Board, and other related submissions; as well as addressing the handling of all proceedings before the Board and the conduct of all affected parties. As they set forth the specific information that must be included in all filings, as well as the time frames within which said information must be submitted, these rules are essential if the Board is to process those petitions lawfully before it in an expeditious and just manner. While the majority of matters brought before the Board are submitted by regulated public utilities, petitions are also filed by persons who have grievances against regulated public utilities, or who seek other forms of relief that are within the jurisdiction of the Board.

## **Economic Impact**

While the rules proposed for readoption with amendments and new rules impose no direct or specific costs, all petitioners and other parties will incur varying levels of expenses in preparing and litigating petitions before the Board. These expenses will include costs related to legal assistance, accounting work, engineering input, and expert witnesses, as well as expenses involved in physically preparing and filing the appropriate submissions. With regard to regulated public utilities, all reasonable levels of expenses incurred in complying with these requirements will be considered to be business expenses to be recovered through customer charges. All fees and charges associated with practice and procedure before the Board are set pursuant to statute, *N.J.S.A. 48:2-56*. The collection of these fees and charges, however, is inapplicable to public utilities, which are subject to assessment pursuant to law, *N.J.S.A. 48:2-72*.

Finally, none of the proposed amendments and new rules will have an adverse economic impact, beyond that mentioned above.

## **Federal Standards Statement**

Executive Order No. 27 (1994) and *N.J.S.A. 52:14B-22* through 24 require State agencies that adopt, readopt, or amend State rules that exceed any Federal standards or requirements to include in the rulemaking document a Federal standards analysis. *N.J.A.C. 14:1* is not promulgated under the authority of, or in order to implement, comply with, or participate in any program established under Federal law or under a State statute that incorporate or refers to Federal law, Federal standards, or Federal requirements. Accordingly, Executive Order No. 27 (1994) and *N.J.S.A. 52:14B-1* et seq., do not require a Federal standards analysis for the rules proposed for readoption with amendments and new rules.

## **Jobs Impact**

The Board anticipates that the rules proposed for readoption with amendments and new rules will have little or no impact on jobs in New Jersey. The rules proposed for readoption with amendments and new rules continue existing requirements for which any needed personnel are already in place. The rules proposed for readoption with amendments and new rules do not increase the number of employees that would be required by any of the entities regulated by the rules.

## **Agriculture Industry Impact**

*N.J.A.C. 14:1* has not to date had any impact on the agriculture industry in New Jersey, and no such impact is anticipated as a result of the rules proposed for readoption with amendments and new rules.

## **Regulatory Flexibility Analysis**

The rules proposed for readoption with amendments and new rules at *N.J.A.C. 14:1* will impose some recordkeeping, reporting, or other compliance requirements on small businesses. A small business, as defined in the New Jersey Regulatory Flexibility Act, *N.J.S.A. 52:14B-16* et seq., is a business that has fewer than 100 full-time employees. As these rules apply to any person initiating or participating in proceedings before the Board, the rules will undoubtedly affect some small businesses. However, it is impossible to determine how many small businesses will be affected.

While the rules impose some minor reporting, recordkeeping, and compliance requirements, as discussed in the Summary above, these are generally simple requirements that provide for predictability and consistency in the Board's proceedings, and therefore ultimately result in a benefit to all affected persons, including small businesses. Furthermore, the procedures help to

protect parties to Board proceedings by ensuring notice of filings by other parties, and protection of the confidentiality of submitted information. Therefore, no special provisions for small businesses have been proposed.

To varying degrees, participants may choose to utilize professional services to assist in the preparation, filing, or litigation of matters before the Board. These services may include legal, accounting, engineering, and economic advisers. As previously indicated, all reasonable levels of expenses incurred by a public utility will be considered to be business expenses that may be recovered through rates to customers.

### **Housing Affordability Impact Analysis**

The rules proposed for readoption with amendments and new rules will have no impact on affordable housing in New Jersey and will not evoke a change in the average costs associated with housing because the rules pertain to the rules of practice and procedure before the Board of Public Utilities.

### **Smart Growth Development Impact Analysis**

The Board anticipates that the rules proposed for readoption with amendments and new rules will have no impact on smart growth and there is an extreme unlikelihood that the rules would evoke a change in housing production in Planning Areas 1 or 2, or within designated centers, under the State Development and Redevelopment Plan because the rules pertain to the rules of practice and procedure before the Board of Public Utilities.

## Racial and Ethnic Community Criminal Justice and Public Safety Impact Statement

The proposed readoption with amendments and proposed new rules will not have an impact on pretrial detention, sentencing, probation, or parole policies concerning adults and juveniles in New Jersey. Accordingly, no further analysis is required.

**Full text** of the rules proposed for readoption may be found in the New Jersey Administrative Code at [N.J.A.C. 14:1](#).

(a) The [law at present casts upon the] Board [the responsibility of determining] **shall determine** what security issues may be made by public utilities in the State of New Jersey (N.J.S.A. 48:3-9). The Board, [after due hearing, or investigation, is required to] **shall** approve proposed security

issue[s;], **with or without hearing at its discretion**, provided the Board be satisfied that proposed issues are in accordance with law, and provided the Board approves the purpose of said proposed issues.

(b) (No change.)

(c) Various cases involving the approval of proposed security issues have been acted upon by the Board under the law. An analysis of many of these cases discloses certain general principles upon which these applications should be determined. These general principles will control unless and until good reason can be shown for departing therefrom. For the information of public utilities petitioning or intending to petition for the approval of security issues, certain of these general principles are set forth as follows:

1. (No change.)

2. The purpose of a proposed issue is not commendable[,] and will not carry the Board's approval where the issue, if approved, would result in an evasion of mandatory statutory provisions governing the issue, sale and delivery of securities. Thus, in the case of the Riverside Traction Company, cited in (b) above, the purpose of a proposed bond issue was held vitiated by the fact that said bond issue, if approved, would defer for a time or indefinitely postpone an assessment for an unpaid percentage of the face value of the stock issued and outstanding.

3.-9. (No change.)

Section 14:1-5.10 - Petitions for authority to transfer capital stock

(a) (No change.)

Section 14:1-5.11 - Tariff filings which do not propose increases in charges to customers

1.[Four copies of t] The proposed tariff or revision, change or alteration thereof, together with an explanation of the manner in which the tariff or change differs from the existing or prior tariff, and the effect, if any, upon revenue;

2.-5. (No change.)

Section 14:1-5.12 - Tariff filings or petitions which propose increases in charges to customers

(a) Tariff filings or petitions for the purpose of making effective or making revisions, changes, or alterations of existing tariffs which propose to increase any rate, fare, toll, rental, or charge or so to alter any classification, practice, rule, or regulation as to result in such an increase, other than filings to effectuate the operation of an existing fuel or raw materials adjustment clause, shall conform to the provisions of N.J.A.C. 14:1-4.2A and N.J.A.C. 14:1-5.1 through 5.4, to the extent applicable, and shall in the body thereof, or in attached exhibits, contain all applicable information and data set forth in N.J.A.C. 14:1-5.11 and , in addition, shall contain the following information and financial statements which shall be prepared in accordance with the applicable Uniform System of Accounts:

1.-6. (No change.)

[7. Whenever a telephone company seeks to increase its rates, it shall include in its petition or attachments thereto information demonstrating the principles of rate design employed in the

proposed tariff revisions. Such information shall identify the approximate percentage of increased revenue requirement, should the Board determine a lesser additional revenue requirement than that sought by the company, at which it would derive a different proportion of revenue requirement from each of the major classes of service whose prices are sought to be increased, and the revenue requirement by class at each such level. The information shall include a statement of the amount and percentage of increase which would be raised from each such class of service if relief of approximately one-third the request were approved by the Board;]

[8.]7. In providing the information required by (a)5, 6 and above, a company may also file, in addition to the new rates proposed to become effective, alternative rate changes designed to produce the full revenue request, which alternatives are illustrative of the application of other possible rate designs to the filing;

Recodify existing 9.- 10. as **8.- 9.** (No change in text.)

[11.]10. If a company is part of a family of companies that files a consolidated Federal income tax return, that company shall include in its petition a consolidated tax adjustment (CTA) calculation using the rate base method, which allows the parent company to keep certain tax savings, while requiring the petitioner to reflect the savings by reducing the rate base upon which the utility's return is determined. The CTA calculation must include all supporting information and documents necessary for the Board to determine and implement an appropriate CTA calculation pursuant to this section. A CTA provides a mechanism that the Board will utilize in rate cases, so that ratepayers should share a specified portion of the tax savings achieved from the filing of a consolidated tax return. Required information and supporting documents include, but are not limited to, a schedule showing each affiliate

company's taxable income/loss by year, an indication whether the affiliate is a regulated utility company or not, the statutory Federal income tax requirement for each year, if any, and the alternative minimum tax requirement for each year, if any. The review period for the CTA calculation shall be for five consecutive tax years, including the complete tax year within the utility's proposed test year. The calculated CTA shall be allocated, so that the rate base [may be reduced by up to 25 percent of the full CTA] **shall be reduced by 100 percent of the full CTA**. The transmission portion of an electric distribution company's income shall not be included in the calculation of CTA.

(b) Each utility that makes a filing under (a) above shall, unless otherwise ordered or permitted by the Board, give notice thereof as follows:

1. Serve a notice of the filing and a copy of the proposed tariff or a copy of the petition or a statement of the effect of the proposed filing upon the municipal clerk in each of the municipalities in which there is rendered a service, the charge for which is proposed to be increased, the clerk of the Board of **County Commissioners** [Chosen Freeholders] of each affected county and, where appropriate, the executive officer of each affected county;

Box 003, Trenton, New Jersey 08625;
3. (No change.)

(c)-(e) (No change.)

(f) Unless otherwise ordered by the Board, a utility that seeks to implement a provisional rate increase shall:
