NOTICE OF WORK SESSION¹

Investigation of Resource Adequacy Alternatives

Docket No. EO20030203

Pursuant to the Open Public Meetings Act, N.J.S.A. 10:4-6 to -21, the New Jersey Board of Public Utilities ("NJBP" or "Board") hereby gives notice of a Work Session in the Board's ongoing [Investigation of Resource Adequacy Alternatives](#) designed to examine whether New Jersey can achieve its long-term clean energy and environmental objectives under the current resource adequacy paradigm.

This Work Session will explore the Fixed Resource Requirement ("FRR") proposals submitted by PSEG ("PSEG") and Exelon Generation Company LLC ("Exelon"), as set forth most recently on October 2, 2020. The October 2 PSEG and Exelon comments were filed in response to the Board's September 18, 2020 Technical Conference. During the conference, various parties discussed the pros and cons of the various FRR proposals, and suggested new alternative approaches to FRR that the Board may wish to consider. The PSEG comments are available [here](#), and the Exelon comments are available [here](#).

The Work Session will be held at 10 a.m. ET on November 9, 2020, and will be conducted virtually. Interested parties may sign up at <https://attendee.gotowebinar.com/register/5187402811932966160>.

The purpose of this Work Session is to provide NJBP Staff, its consultants, and interested stakeholders with a forum to ask questions about the FRR proposals in PSEG's and Exelon's comments. Staff's intent at the conclusion of the Work Session and comment period is to have sufficiently developed PSEG's and Exelon's proposals such that NJBP Staff and its consultant may model the financial and technical implications of the FRR proposals.
