Re: New Pole and 4 Fixtures in Exercise Yard
Quotation

Dear Mr. Kocserha:

As per our meeting and site visit, we would like to summarize the following:

- A. A piece of the bottom section of the original pole is still intact. We would need to remove the piece, disconnect wiring and measure existing anchor bolt pattern.
- B. Determine exact dimension for pole approximately 25 feet high and suggest spun aluminum tapered finish.
- C. Order four (4) 400 watt high pressure sodium fixtures complete with lamps and mounting hardware.
- D. Verify voltage to location, whether it is a multitype ballast to 277 volts or a straight 480 volts.
- E. Order, obtain, assemble and install and wire pole complete with bucket truck.

TOTAL AMOUNT OF ABOVE TO BE.....\$ 8,750.00

Attached please find some ordering information. Prior to release exact shop drawings would be furnished. With all best regards,

Very truly yours,
BEAVER ELECTRIC CO., INC.
