PART 1
AUDITING AND OTHER RELATED SERVICES FOR DISASTER RECOVERY (HURRICANE SANDY)
RFP 14-X-23110

Answers to Questions

Note: Some of the questions have been paraphrased in the interest of readability and clarity. Each question is referenced by the appropriate RFP page number(s) and section where applicable.

1. Section: 1.1 Page: 4

Question: *The purpose of this RFP is “to act as a supplement to the recently issued federally-based, GSA RFQ for Program and Process Management Auditing...for Hurricane Sandy contracts.” Is this a supplement in terms of increasing the number of firms awarded in each pool? Did the state not have enough firms awarded (issued an intent to award) under the GSA RFQ therefore issuing this identical RFP?*

Answer: **The State's goal of this RFP is to increase the number of firms awarded in each pool.**

2. Section: 1.1 Page: 4

Question: *The RFP states that the contract awards will act as a supplement to the recently issued federally-based GSA RFQ for the same services. If awards have already been made related to the GSA RFQ, who were the successful vendors?*

Answer: **The following firms were awarded a contract in response to the related RFQ:**

ADDX Corporation - Pool 3
Brown & Company CPAs, PLLC - Pools 1, 2, & 3
CliftonLarsonAllen LLP - Pools 1, 2, & 3
CohnReznick LLP - Pools 1, 2, & 3
Customer Value Partners - Pools 1, 2, & 3
Deloitte Financial Advisory Services - Pools 1, 2, & 3
FTI Consulting - Pools 1 & 2
GMG Management Consulting - Pools 1, 2, & 3
Grant Thornton - Pools 1, 2, & 3
Hagerty Consulting - Pools 1 & 2
Innovative Emergency Management - Pools 1, 2, & 3
Ofori & Associates - Pools 1 & 2
T & T Consulting Services - Pool 1
Ernst & Young - Pools 1, 2, & 3
Foxx & Company - Pools 1, 2, & 3

Question: *Please provide the names of the vendors who submitted proposals in response to the GSA RFQ. ?*

Answer: **The following bidders also submitted proposals:**

AED, Inc.
BDO USA, LLP
PricewaterhouseCoopers LLP
Talson Solutions LLC
GMG Management Consulting Inc.
Reed Associates

3. Section: 1.1 Page: 4

Question: *In the fifth paragraph, "Qualified firms shall possess all required Federal and State licensing." As professional services firms, we possess the required State licensing, but for legal and accounting professionals, there are no required Federal licenses. Are there any Federal licenses we are obligated to obtain in order to respond to this RFP?*

Answer: **A contractor is required to possess all licenses as required by State and federal laws and regulations if such a license is needed to ensure compliance with the applicable State and/or federal law or regulation. Since the breadth of services that may be required for each Task Order in the future is not presently known, the State cannot prospectively answer this question.**

4. Section: 1.1 Page: 4

Question: *Would the State alter the solicitation to designate the work to be performed under the contract to be as a "contractor" as opposed to a "grantee" or "sub-grantee"? Sub-recipients (sub-awardees) of the grant are subject to certain grant provisions which do not allow for-profit firms to compete and has highly-stringent audit requirements requiring a cost build-up for expenses. Subcontractors (also termed Contractors) to the grant may receive profit, nor are they required to comply with cost accounting standards, and may perform Firm Fixed Price contracts for a flat fee with not cost or expense build-up for expenses.*

Subcontractors (also termed Contractors) to the grant may receive profit, nor are they required to comply with cost accounting standards, and may perform Firm Fixed Price contracts for a flat fee with not cost or expense build-up.

To confirm that the work can be performed as a contractor (as opposed to a sub-grantee) would allow a more competitive cross section of qualified bidders and satisfy the State's competition goals.

Answer: **Firms awarded contracts pursuant to this RFP will be considered "contractors" as defined in the RFP.**

5. Section: 1.1 Page: 4

Question: *The RFP states "Bidders should note that contractors resulting from this RFP will be engaged through Task Orders only after a Using Agency is unable to obtain required services from those contractors previously engaged through the GSA RFQ." This could result in a situation where a bidder for this RFP with a higher score than an awardee under the GSA RFQ would not have the opportunity to perform work to assist the State. Would the State be willing to consider modifying this language to give equal opportunity to all qualified awardees*

Answer: **Please refer to the RFP modification in Part 2 of this Addendum. It is the State's intent to increase the total number of firms contracted within the three pools through this RFP.**

6. Section: 1.1 Part 1 Page: 4

Question: *Section 1.1 of the RFP states, among other things, that:*

"The contract awards will act as a supplement to the recently issued federally-based, General Services Administration (GSA), Request for Quotation (RFQ) for Program and Process Management Auditing, Financial Auditing and Grant Management, and Integrity Monitoring/Anti-Fraud Services for Disaster Recovery Assistance (Hurricane Sandy) contract. . . .

[C]ontractors resulting from this RFP will be engaged through Task Orders only after a Using Agency is unable to obtain required services from those contractors previously engaged through the GSA RFQ."
(RFP, § 1.1.)

Due to the foregoing language, the RFP could be interpreted to mean that contractors resulting from this RFP ("State RFP Contractors") will only receive requests for competitive price quotes, as contemplated under the RFP's "Engagement Process" in Section 1.2.1., if the Treasurer or Using Agency: (i) requests quotes from the members of the relevant pool created through the GSA RFQ ("GSA Vendors"); but (ii) no GSA Vendor that can permissibly provide the services submits a proposal in response to the request.

Question: (a) Questions regarding Section 1.1 (4)

(1) Is the foregoing interpretation of the RFP partly or entirely correct? For this question, if the foregoing interpretation of the RFP is not entirely correct, please explain why and provide a correct interpretation.

Answer: Please refer to the RFP modification on this issue in Part 2 of this Addendum. Please also see the State's response to Question 5 for further clarification.

Question: (2) What does "supplement" mean in the excerpt from Section 1.1 above?

Answer: The State considers "supplement" to mean the addition of contractors within all pools to increase the number of firms within each pool.

Question: (3) *In what circumstances will the Treasurer or Using Agency be "unable to obtain required services from those contractors previously engaged through the GSA RFQ," as stated in the excerpt from Section 1.1 above?*

Answer: Please refer to the RFP modification in Part 2 of this Addendum regarding the engagement process.

Question: (4) *Who will decide whether or not the Treasurer or Using Agency is "unable to obtain required services from" a GSA Vendor?*

Answer: See prior answer.

Question: (5) *If only one GSA Vendor provides a proposal in response to a request for competitive price quotes, can the Treasurer or Using Agency reject the proposal and then issue a request to the appropriate pool of State RFP Contractors?*

Answer: Please refer to the RFP modification in Part 2 of this Addendum regarding the engagement process. Please also refer to the State's response to Question #5 for further clarification. Contractors under the GSA RFQ will not receive preference solely due to the fact they were awarded contracts under the GSA RFQ.

Question: (6) *Will the Treasurer or Using Agencies' requests for competitive price quotes be issued to the GSA Vendors and State RFP Contractors simultaneously? For this question, if the answer is "no," please also state whether the State RFP Contractors will receive notice of the issuance of the requests to the GSA Vendors at the time of their issuance.*

Answer: See prior answer.

7. Section: 1.1 Part 2 Page: 4

Question: *If the interpretation stated above is correct, the RFP will, in certain instances, limit the Treasurer and Using Agencies' ability to solicit proposals from contractors that can provide the best price and service. For instance, if one GSA Vendor provides a proposal in response to a request for competitive price quotes, then the Treasurer or Using Agency will be required to engage that GSA Vendor, even if there are numerous State RFP Contractors that would, given the opportunity, provide better proposals. By imposing a preference for GSA Vendors, the RFP could be fettering competition by precluding the Treasurer and Using Agencies from, in certain instances, even requesting a price quote from qualified State RFP Contractors, let alone contracting with them.*

Therefore, we respectfully request that the RFP be generally modified to: (i) permit the Treasurer and Using Agencies to simultaneously issue requests for competitive price quotes to the GSA Vendors and State RFP Contractors; (ii) eliminate any preference for GSA Vendors; and (iii) enable the Treasurer and Using Agencies to select the appropriate contractor based on traditional criteria, including price, quality, and experience.

To effectuate such a modification, the following provisions must be eliminated from the RFP:

- “[C]ontractors resulting from this RFP will be engaged through Task Orders only after a Using Agency is unable to obtain required services from those contractors previously engaged through the GSA RFQ,” (RFP, § 1.1); and
- “. . . when it has determined it cannot obtain the required services from contracts awarded through the GSA RFQ.” (RFP, § 1.2.1.)

In addition, depending on its meaning, the word “supplement” in Sections 1.1 and 1.2 may need to be replaced with “augmentation” or “augment.”

Answer: Please refer to the RFP modification in Part 2 of this Addendum. Please also refer to the State’s Answers to Questions #5 and #6 for further clarification.

8. Section: 1.2.1 Page: 5

Question: *The RFP States that “Any firm may submit pricing lower than its bid price for a specific project. The firm will then be held to that lower pricing for all future engagements.” Is it possible to amend this statement to read “. . .held to that lower pricing for all future engagements of similar size and scope.” Given that each project may involve various focus areas, professional levels, timing, hours, etc., the pricing structure may need to be different from project to project. We are concerned the State would not receive the benefit of a lower pricing structure when feasible if vendors will always be locked into that lower price despite the scope and size of the project.*

Answer: The State has reviewed your request and does not agree to this requested modification.

9. Section: 1.2 Page: 5

Question: *The solicitation mentions a previous GSA RFQ (General Services Administration (GSA), Request for Quotation (RFQ) for Program and Process Management Auditing, Financial Auditing and Grant Management, and Integrity Monitoring/Anti-Fraud Services for Disaster Recovery Assistance (Hurricane Sandy)), which was released on the GSA Advantage system. Can you please provide a copy of this RFQ to potential offerors who did not receive this RFQ initially?*

Answer: The Scope of Work requirements in this RFP are substantially similar to the previously issued RFQ.

10. Section: 1.2.1 Page: 5

Question: *What criteria will the State use to determine the minimum of 5 (or total of) contractors to be selected for services that cannot be obtained through the GSA RFQ? Will it be done on a rotational basis?*

Answer: The State Contract Manager in consultation with the Using Agency, will determine which firms will be selected. A Method of Operation will be developed after contract award.

11. Section: 1.2.1 Page: 5

Question: *What would be the reasons for the Treasurer or Using Agency to determine they are unable to obtain required services from the contracts awarded through the previous GSA RFQ titled “Program and Process Management Auditing, Financial Auditing and Grant Management, and Integrity Monitoring/ Anti-Fraud Services for Disaster Recovery Assistance (Hurricane Sandy)”?*

Answer: Please refer to Part 2 of this Addendum regarding the engagement process.

12. Section: 1..1 Part 3 Page: 5

Section 1.2.1 of the RFP states, among other things, that:

“The request [for competitive price quotes] will be sent from the Treasurer or Using Agency to a minimum of five (5) contractors in the appropriate pool, or to all contractors if the pool contracts less than 5 contractors, in order to avoid any perception of preference. . . .

If a contractor is not able to participate in a specific request due to a conflict of interest or scheduling, it shall decline the request . . . in writing . . . within three (3) business days of the issuance of the request. . . . Prior to finalizing any engagement . . . the Treasurer or Using Agency must determine whether the intended contractor has any conflict with regard to the services requested with due regard to the entity being audited or monitored.”
(RFP, § 1.2.1.)

Questions regarding Section 1.2.1 (5-6)

Question: *In circumstances where the relevant pool has more than five contractors, what factors or considerations will determine or impact the number of contractors that receive a request for competitive price quotes?*

Answer: **Please refer to the State's Answer to Question #10.**

Question: *Who will decide the number and identity of the contractors that receive a request for competitive price quotes?*

Answer: **Please refer to the State's Answer to Question #10.**

Question: *In circumstances where the relevant pool has more than five contractors, what factors or considerations will determine or impact which contractors receive a request for competitive price quotes?*

Answer: **Please refer to the State's Answer to Question #10.**

Question: *What is the standard for “conflict” and “conflict of interest” in the above excerpt from Section 1.2.1 (5-6)?*

Answer: **A prime example of a conflict is that pool contractors may compete for a contract award in one or more pools; however bidders awarded contracts for multiple pools may not provide conflicting services for the same projects. Another example is that, a person with CDBG responsibilities, decision-making power or information may not obtain a financial interest or benefit from CDBG activity or have any interest in the contract or subcontract. Please also refer to Section 5.21 of the RFP which states that firms are prohibited from acting as a contractor for both the auditing and integrity monitoring requirements for the same project.**

13. Section: 1.2.1 Page: 5

Question: *The RFP states “ The request will be sent from the Treasurer or Using Agency to a minimum of 5 contractors in the appropriate pool...” What will be the selection process or how will the State select the 5 contractors ?*

Answer: **Please refer to the State's Answer to Question #10.**

14. Section: 1.4.8 Page: 10

Question: *If the State is amenable to a contractor being considered a “contractor” as opposed to a “sub-grantee” would the state alter the solicitation to reflect the auditing and reporting requirements of a “contractor”? If the State determines that bidders could be considered contractors under grant law, the reporting requirements should be updated as applicable to contractors as opposed to sub-grantees.*

Answer: Firms awarded contracts as a result from this RFP will be considered contractors as defined in the RFP.

15. Section: 3.0 Page: 14

Question: *My firm is interested in understanding more about the size of this job. Would you be able to provide a brief overview of the services needed, timing and expected output or report?*

Answer: The State makes no guarantee of work volume. The “size of this job” would be determined by the number of Task Orders awarded to any one contractor in the pools and the scope of work contained in those Task Orders.

16. Section: 3.1 Page: 14

Question: *Would the responding contractor act as a consultant to the system developers to determine that the system meets the needs of the State and other users in regard to controls for accountability and reporting?*

Answer: The State refers the bidder to the Scope of Work for contemplated services.

17. Section: 3.0 Page: 14

Question: *The RFP states the contractor should be able to provide professional specialties such as engineering and structural integrity services, etc. Please provide a list of awarded contracts with identifiers that the State expects the integrity monitoring awardee to oversee.*

Answer: The State cannot provide a list at this time as the procurement for many services required are ongoing.

18. Section: 3.3 Page: 15

Question: *Can we state in our Technical Proposal that our firm plans to use one or more subcontractors, or does each subcontractor have to be identified in the proposal? If they must be identified now, do we have the ability to switch subcontractors listed if we are awarded certain work at a later date?*

Answer: A bidder must list each specific subcontractor it intends to use within its proposal. A contractor wishing to substitute or add/delete subcontractors after award must comply with the provisions of Section 5.7 of the RFP and Section 5.8 of the State of New Jersey Standard Terms and Conditions. Please note that this is a contract with set-aside subcontracting goals for New Jersey Small Business Enterprises. If a bidder intends to subcontract, please refer to Section 4.4.1.5.2 of the RFP for more information concerning the actions that a bidder must take to satisfy the requirements of the RFP's set-aside subcontracting goal. Please also note that if the bidder intends to subcontract, it must submit a Subcontractor Utilization Plan in accordance with Section 4.4.1.4 of the RFP. All subcontractors must have a valid Business Registration Certificate on file with the Division of Revenue and a copy of the registration certificate should be attached to the Subcontractor Utilization Plan.

19. Section: 4.4 Page: 19

Question: *There is a restriction of 25 pages for the "Technical Proposal". Please confirm this page limit applies to all items covered in 4.4.3.1 through 4.4.3.4. Also, please confirm that the restriction is for each pool i.e., if a firm bids on all three pools the maximum number of pages is 75.*

Answer: The 25 page limit applies to the entire Technical Proposal for each pool. Therefore, if a bidder submits a proposal for three pools, its Technical Proposal may be 75 pages in length.

20. Section: 4.4 Page: 26

Question: *It is noted that "The chart should include the labor category and title of each such individual." To which labor categories and titles is this referring?*

Answer: A bidder's organization chart should include the labor category and titles as listed from "a" through "h" of this section and as presented within the Price Schedules. In error, there are two RFP Sections 4.4 listed on P. 19 and P. 25. This answer applies to Section 4.4 Organizational Support and Experience on P. 25.

21. Section: 4.4.1.4 Page: 21

Question: *Since this RFP is to develop a pool of vendors, will we need to specify the names of any subcontractors we plan on utilizing?*

Answer: Yes, please refer to the State's answer to Question #18.

22. Section: 4.4.1.4 Page: 21

Question: *Can a contractor awarded under the GSA RFQ be a subcontractor for this RFP?*

Answer: A contractor who received an award under the related RFQ can act as a subcontractor for this RFP as long as there is no conflict at the time of engagement Please also see the State's answer to Question #18 regarding use of subcontractors.

23. Section: 4.4.1.5.2 Page: 22

Question: *Please confirm the small business participation goal for this contract.*

Answer: The Small Business Subcontracting Set-Aside is a goal of this contract and not a requirement. If a bidder elects to use subcontractors, it must document its good faith efforts to meet this goal.

24. Section: 4.4.1.5.2 Page: 22

Question: *The RFP appears to permit proposals that do not include the use of any subcontractors, however, Section 4.4.1.5.2 "SMALL BUSINESS SUBCONTRACTING SET-ASIDE CONTRACTS" says "This is a contract with set-aside subcontracting goals for New Jersey Small Business Enterprises". Please clarify whether subcontractors need to be identified within our proposal and the desired percentage of participation by NJ small business enterprises.*

Answer: Small Business Subcontracting Set-Aside is a goal of this contract and not a requirement. A bidder may choose to not use subcontractors. If a bidder elects to use subcontractors, it must document its good faith efforts to meet this goal. Please refer to Section 4.4.1.5.2 of the RFP.

25. Section: 4.3.1 Page: 24

Question: *Please confirm, if we submit proposal electronically no hard copies are necessary.*

Answer: **If a bidder submits an eBid, then a hard copy submission is not necessary.**

26. Section: 4.4.3 Page: 24

Question: *Can the State please expand on its expectation for what will be included in a proposer's technical proposal? The services described in section 3.0 of the RFP are very broad and since the exact projects that will be requested are not definitely known at this time, it will be difficult to map out a technical plan for completion of an unknown project. It would seem to be the response to this section would be examples of similar projects completed by the Firm proposing. Is this in line with what the State is expecting?*

Answer: **Please refer to the requirements in Section 4.4.3 of the RFP.**

27. Section: 4.4.4.7 Page: 27

Question: *Certain financial information is requested from the bidder. As unaudited professional services firms, we do not have the requested documents, such as certified financial statements, reviewed or compiled statements from an independent accountant or applicable notes. Is it permissible for us to submit a copy of the firms' balance sheets per books on cash basis, per the firms' filed federal corporate income tax returns for the previous year?*

Answer: **As stated in Section 4.4.4.7, "If certified financial statements are not available, the bidder should provide either a reviewed or compiled statement from an independent accountant setting forth the same information required for the certified financial statements, together with a certification from the Chief Executive Officer and the Chief Financial Officer, that the financial statements and other information included in the statements fairly present in all material respects the financial condition, results of operations and cash flows of the bidder as of, and for, the periods presented in the statements. In addition, the bidder should submit a bank reference".**

28. Section: 4.4.5 Page: 28

Question: *The RFP states, "Each bidder is required to hold its prices firm through issuance of contract". Does the state mean 'firm through duration of 3-year contract term'?*

Answer: **A bidder may submit different pricing for years 1 and 2 of the base term of the contract. A contractor may always lower its pricing at any time.**

29. Section: 5.7 Page: 31

Question: *Can a firm be engaged as a subcontractor to one of the recipients of the GSA contracts from the previous RFP and be a prime contractor under this supplemental RFP?*

Answer: **A firm engaged as a subcontractor to one of the awardees of the related RFQ is eligible for a contract award resulting from this RFP as long as there is no conflict.**

30. Section: 5.8 Page: 31

Question: *Given that the tasks specifics cannot be determined at this time, would the State permit bidders to define contractor intellectual property in general terms? As specific tasks are determined, it maybe be easier to understand the intellectual property provisions applicable to the particular task.*

Answer: **A bidder should exercise its best judgment in how it elects to identify pre-existing intellectual property it may use in performing work on the projects resulting from this RFP.**

31. Section: 5.9.1 Page: 32

Question: *Please consider add the following to end of the third: "except as permitted by the RFP or resulting Contract." Please consider add the following to end of the second paragraph of this clause as follows: ", in accordance with the terms of the Contract."*

Answer: **The State will not accept this modification.**

32. Section: 5.11 Page: 33

Question: *Would the State consider making the clause mutual?*

Answer: **No.**

33. Section: 5.17.2 Page: 36

Question: *Please consider removing "and in such policy forms as shall be approved by the State" from this clause. Our policies are currently in place and therefore, cannot be approved by the State.*

Answer: **A contractor must submit its policy forms for State approval before contract activation.**

34. Section: 5.17.2 Page: 36

Question: *Our comments and suggested changes to the RFP terms and conditions are as follows:*

1.) In response to Section 5.17.2, Insurance – Professional Liability Insurance – Our firm maintains insurance policies as required by state statute and at sufficient levels to adequately cover all reasonably foreseeable events. If awarded the contract, our firm reserves the right to negotiate policy terms, limits and conditions tailored to the specifics of the services provided, to the satisfactory agreement of both parties, and that comport with legal and professional industry standards.

Answer: **The State will not accept this modification.**

35. Section: 6.7.2 Page: 39

Question: *The RFP states bidders will be ranked according to the total proposal price located on the Price Sheet/Schedule accompanying this RFP. There is no total proposal price located on the accompanying price sheets. Please confirm what you are requesting other than hourly rates for each pool.*

Answer: **The State will tabulate a total proposal score based on the hourly rates submitted with the Price Schedule. The State will consider the cost reasonableness of the hourly rates submitted by bidders.**

36. Section: 6.7 Page: 39

Question: *How much weight is being given to contractors' experience with FEMA?*

Answer: **Evaluation criteria weights cannot be revealed to bidders until the Notice of Intent to Award letters are issued.**

37. Section: 6.7.2 Page: 39

Question: *The RFP states that in addition to hourly rates for each staff position, we are to set forth "how (our) hourly rates will be applied to the various services requested in the RF " Could you provide more guidance on what you are looking for in terms of how our rates will be applied to the requested services? The RFP sets forth a high level scope of services, but it does not describe a specific project or a type of project, and without more*

information about the type of monitoring project in question (size, complexity, magnitude of construction costs, type of construction, etc.) it is difficult to provide a staffing allocation.

Answer: The State cannot provide specific information on future Task Orders related to this RFP.. Please provide hourly rates for each labor category as required in the Price Schedule.

38. Section: Price Shedule Page: 45

Question: *Would the state consider firm fixed pricing arrangements for contractors that do not offer their services on an hourly basis? Allowing responders to bid using a firm fixed pricing model would allow more competitive pricing approaches and would open the potential pool to those bidders who do not have hourly rates and/or labor categories. Further, a firm-fixed price team model can not only minimize risk to the Government but also can allow the Government to truly obtain the best value.*

Answer: The State does not agree to this requested modification.

39. Section: Price Shedule Page: 45

Question: *The Pass Through Price Lines are marked "N/A". Please confirm that a bidder does not have to submit costs for these lines.*

Answer: Bidders do not have to submit pricing for the Price Lines marked "N/A".

40. Section: 1.1 Page: 45

Question: *Our firm was selected, as a subcontractor to a GSA Schedule holder, for the recent federally-based, General Services Administration (GSA), Request for Quotation (RFQ) for Program and Process Management Auditing, Financial Auditing and Grant Management, and Integrity Monitoring/Anti-Fraud Services for Disaster Recovery Assistance (Hurricane Sandy) contracts. Our firm is not a qualified small business and is not listed on a GSA schedule. Is our firm eligible for selection if we respond to RFP 14-X-23110 as a prime contractor for one or more Pools?*

Answer: Please refer to the State's answer to Question #29.

41. Section: 4.3.1 & 4.4

Question: *The RFP states that proposal content should be submitted in "Volumes." In Section 4.3.1, only two volumes are mentioned. However, in Section 4.4 it states "the proposal should be submitted in two volumes," but there are three volumes listed below that statement. How many volumes should we use for our proposal content, which Sections should be included in each, and how should we title them?*

Answer: The language in Section 4.3.1 is modified to be the same as the language in Section 4.4. Bidders should submit its proposal in the following format regardless of whether it is an eBid or hard copy submission:

Volume 1
Forms (Sections 4.4.1 and 4.4.2)

Volume 2
Technical Proposal (Section 4.4.3) – NOTE: This section of the bidder's submission is limited to 25 pages or fewer, with no smaller than a 12 point font.
Organizational Support and Experience (Section 4.4.4)

Volume 3
Section 4 – Price Schedule (Section 4.4.5)

42. Sections: 4.4.1.4 & 4.4.1.5.2

Question: *The “small business set-aside” and “subcontracting” are referenced throughout the RFP, specifically Section 4.4.1.4 – Section 4.4.1.5.2. Are respondents required to subcontract? Does the small business set-aside apply only if we are subcontracting?*

Answer: Bidders are not required to use subcontractors. The referenced RFP sections are goals of the State and not requirements, however if bidders are intending to use subcontractors, the Subcontractor Utilization Plan Form must be submitted within the proposal submission and the bidder must document its good faith efforts towards meeting this goal. Please refer to the State’s answer to Question #18 for further information.

43. Section: 4.5 & 7.0

Question: *Certain RFP Sections and related forms, namely Section 4.5 and Section 7.0 and its related forms, are required as part of our proposal content but are not included in any of the volumes. Where should we include additional information like this and how should it be titled?*

Answer: Bidders should include all related forms in Volume 1 of its proposal submission. Please refer to Part 2 of this Addendum.

44. Section: 4.4.4.3 & 4.4.4.5

Question: *The RFP asks for examples of similar experience and client references. Many of the client matters that our firm have handled are confidential and therefore we cannot include the specific client name in our proposal content. Can confidential client names and references be redacted or otherwise protected from public disclosure? If yes, are there preferred means of shielding the client's names and references?*

Answer: Bidders withhold information from their proposals at their own risk. However, if your firm specifically marks this information "Confidential" in your proposal, it will not be released to the public so long as there is a good faith basis for the claim for confidentiality. Please refer to Section 1.4.4 of the RFP for more information. In the event of an Open Public Records Act request, a bidder seeking such confidentiality must agree to assist the State in the defense of such a claim.

45. Section: General

Question: *I cannot open any bid documents. Are they uploaded to the site yet?*

Answer: The RFP was uploaded to the Division of Purchase & Property's website on May 3, 2013 and can be found at the following link:

<http://www.state.nj.us/treasury/purchase/bid/summary/14x23110.shtml>

46. Section: Cover Page

Question:

This RFP indicates “subcontracting only” for the “small business set-aside”. Is subcontracting to a small business required?

Answer: Small Business Subcontracting Set-Aside is a goal of this contract and not a requirement.

47. Section: General

Question: *Should/Can the firms that have been notified with intent to award under the GSA RFQ submit a proposal under this RFP?*

Answer: Yes, but only for a pool in which a contract was not awarded to that respective bidder.

48. Section: General

Question: *If a firm was awarded a contract for these same services under the previous GSA procurement, is that firm also eligible to submit a bid under this State solicitation and participate in the subsequent round of Task Order responses in the event an award is not made under the GSA vehicle?*

Answer: Please refer to Part 2 of this Addendum.

49. Section: NJ Standard Terms & Conditions

Question: 1. Page 5, § 4.2 –

a. *In the third sentence, we request that the State change 60 days to 30 days.*

b. *In subparagraph (b), we request that the State replace “any” with “hired and non-owned” in the first sentence. Delete the second sentence.*

c. *Delete the last sentence in this clause.*

2. Page 7, § 5.11 – *we request the State revise (g) to replace “specifications state in the contract” with “applicable professional standards”.*

3. Page 8, § 5.15 – *We request that the State modify the first sentence to add “timekeeping and expense records” after “maintain”.*

4. *The following are additional terms that we ask the State to consider adding to the contract:*

a. *Will the State include a Limitation of Liability clause in the resulting contract, such as the following? - Notwithstanding anything else herein to the contrary, the liability of the Contractor on account of any actions, damages, claims, liabilities, costs, expenses or losses in any way arising out of or relating to the services performed under the Contract shall be limited to the amount of fees paid or owing to Contractor under the Contract. In no event shall Contractor be liable for consequential, special, indirect, incidental, punitive or exemplary damages, costs, expenses, or losses (including, without limitation, lost profits and opportunity costs). This section shall apply regardless of the form of action, damage, claim, liability, cost, expense, or loss asserted, whether in contract, statute, tort (including but not limited to negligence) or otherwise and shall survive termination or expiration.*

b. *Is the State willing to limit third party usage of any work product of the contractor? If yes, we suggest the following additional term - Any advice, recommendations, information, deliverables or other work product provided to the State under this Contract is for the sole use of the State, and is not intended to be, and may not be, relied upon by any third party, and all advice, recommendations, information, deliverables, or other work product may be marked to so indicate. Except for disclosures that are required by law or that are expressly permitted by this Contract, the State will not disclose or permit access to such advice, recommendations, information, deliverables, or other work product to any third party without the Contractor’s prior written consent.*

c. *Use of Third Party Service Providers –Can the State acknowledge that in connection with the performance of services under the Contract, Contractor uses third party service providers within and without the United States to provide at Contractor’s direction administrative and clerical services to Contractor? The following provides additional information about our use of third parties for administrative and clerical services: These third party service providers may in the performance of such services have limited access to information, including but not limited to confidential information, received by Contractor from or at the request or direction of the Contractor. Each such third party service provider has agreed to conditions of confidentiality with respect to the State’s information to the same or similar extent as Contractor has agreed to pursuant this Contract. Contractor has full responsibility to cause these third party service providers to comply with such conditions of confidentiality and Contractor shall be responsible for any consequences of their failure to comply. Accordingly, the State consents to Contractor disclosure to a third party service provider and the use by such third party service provider of data and information, including but not limited to confidential information, received from or at the request or direction of the State for the purposes set forth herein.*

d. Expenses – Can the State acknowledge that Contractor’s policy is to bill the amount incurred at the time the good or service is purchased. Subsequent volume rebates or other incentive payments from a vendor relating to such expenses will not be credited to the State. Instead, the Contractor applies such payments to reduce its overhead costs, which costs are taken into account in determining standard billing rates and certain transaction charges that may be charged to clients.

Answer: The State will not accept these modifications.

1.0 INFORMATION FOR BIDDERS

1.1 PURPOSE AND INTENT

This Request for Proposal (RFP) is issued by the Procurement Bureau, Division of Purchase and Property, Department of the Treasury on behalf of the Treasurer, State of New Jersey. The purpose of this RFP is to solicit proposals from interested qualified firms who can provide Program and Process Management Auditing, Financial Auditing and Grant Management and Integrity Monitoring/Anti-Fraud support services for Disaster Recovery. The contract awards will act as a supplement to the recently issued federally-based, General Services Administration (GSA), Request for Quotation (RFQ) for Program and Process Management Auditing, Financial Auditing and Grant Management, and Integrity Monitoring/Anti-Fraud Services for Disaster Recovery Assistance (Hurricane Sandy) contracts.

The intent of this RFP is to award up to twenty (20) contracts in each of three (3) pools of qualified contractors for the following three (3) separate areas: 1) Program and Process Management Auditing, 2) Financial Auditing and Grant Management and 3) Integrity Monitoring/Anti-Fraud from which any State department, agency or authority or any Cooperative Purchasing Partner (Using Agencies) may select a qualified contractor appointed through this RFP on an as-needed basis pursuant to the engagement process set forth in Section [1.2.1](#) of the RFP. Bidders may compete for a contract award in one or more pools however bidders awarded contracts for multiple pools may not provide conflicting services for the same projects.

The State intends to extend the contracts awarded to the Division's cooperative purchasing partners. These partners include quasi-state agencies, counties, municipalities, school districts, volunteer fire departments, first aid squads, independent institutions of higher learning, County colleges and State colleges. In order for the State contract to be extended to cooperative purchasing partners, the bidder must agree to the extension by executing the Cooperative Purchase Form attached to this RFP. Also refer to Section [4.4.2.3](#) of this RFP. Although the State, with the assent of the vendor(s), is making the use of any contract resulting from this RFP available to non-State Agencies, the State makes no representation as to the acceptability of any State RFP terms and conditions under the Local Public Contracts Law or any other enabling statute or regulation.

Award of contracts within these three (3) pools will be to those qualified firms whose quotes, conforming to this RFP, are most advantageous to the State, price and other factors considered. Bidders should note that contractors resulting from this RFP will be engaged through Task Orders only after a Using Agency is unable to obtain required services from those contractors previously engaged through the GSA RFQ. Therefore, there is no estimation for volume of usage either in labor hours or cost within any of the three (3) pools. The State makes no guarantee of work volume.

It is the State's intent to ensure that all work performed pursuant to this RFP is eligible for United States Department of Housing and Urban Development (HUD) and United States Federal Emergency Management Agency (FEMA) Public Assistance grant funding and performed in accordance with HUD, FEMA and other applicable federal and State regulations, policies and guidance including, but not limited to, Davis-Bacon Act (40 U.S.C. 276a to 276a-7) and Clean Air Act (42 U.S.C. 1857 (h)). Qualified firms shall possess all required Federal and State licensing.

The State will not issue any Task Orders for services funded by CDBG until receipt of all pertinent HUD approvals.

The State of NJ Standard Terms and Conditions will apply to all contracts or purchase agreements made with the State of New Jersey. These terms are in addition to the terms and

conditions set forth in this RFP and should be read in conjunction with them unless the RFP specifically indicates otherwise.

NOTE: Questions regarding the State of New Jersey Standard Terms and Conditions and exceptions to mandatory requirements must be posed during the Electronic Question and Answer period and should also contain the bidder's suggested changes.

1.2 BACKGROUND

On March 27, 2013, P.L.2013, Chapter 37, authorized the deployment, by the Treasurer, State of New Jersey (Treasurer), of oversight integrity monitors in the implementation of certain Hurricane Sandy recovery and rebuilding projects. N.J.S.A. §52:15D-1 et seq. Attachment 1.

On October 27, 2012, Governor Chris Christie signed Executive Order 104 ("EO 104") declaring a State of Emergency in New Jersey related to the impact of Hurricane Sandy, which caused massive property damage and loss of life. On October 27, 2012, President Obama declared a major disaster for New Jersey (DR-4086), thereby qualifying New Jersey for federal disaster assistance funds. Disaster assistance includes HUD Community Development Block Grant Funding-Disaster Relief (CBDG-DR) and FEMA Public Assistance, Individual Assistance and Hazard Mitigation Grant Program funds as well as other federal disaster assistance programs. The New Jersey Office of Emergency Management (NJOEM), in cooperation with other State entities, executed the State Emergency Operations Plan (EOP) in responding to the needs of the State during and immediately following the hurricane.

An initial step to procuring these services was the issuance of the RFQ released through the federal GSA Advantage system. As the State proceeds with the evaluation of responses to this RFQ, it has determined to supplement the number of contractors within each pool who will be providing required services, by also issuing this RFP. The State is seeking Program and Process Management Auditing, Financial Auditing and Grant Management and Integrity Monitoring/Anti-Fraud services to monitor the State's recovery efforts and the compliance and reporting of that effort with both Federal and State requirements for the use and acquisition of appropriated disaster assistance funding for DR-4086 as designated by the grantor agencies.

On January 29, 2013, the Disaster Relief Appropriations Act, 2013 (H.R. 152/Public Law 113-2), appropriated \$16,000,000,000 in Community Development Block Grant (CDBG) funds available for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing and economic revitalization in a declared major disaster pursuant to the Richard T. Stafford Disaster Relief and Emergency Assistance Act of 1974 (42 U.S.C. 5121 et seq.) (Stafford Act). As a grantee of these funds, the State must submit an Action Plan to HUD for review and approval. The State posted its Action Plan for public comment on March 12, 2013.

1.2.1 ENGAGEMENT PROCESS

The scope of work and request for competitive price quotes for each request will be for all or some of the services listed under this RFP and shall be developed, and submitted for approval to the State Contract Manager, on an individual basis as required from the Treasurer or a Using Agency when it has determined it cannot obtain the required services from contracts awarded through the GSA RFQ. The Treasurer or Using Agency will include the specific performance milestones, standards and deliverables, as appropriate, in the request. The Treasurer or Using Agency will structure the liquidated damages provision associated with a failure to meet any required milestones, standards or deliverables, as appropriate. The request will be sent from the Treasurer or Using Agency to a minimum of five (5) contractors in the appropriate pool, or to all contractors if the pool contains less than 5 contractors, in order to avoid any perception of preference.

The Treasurer or each Using Agency will engage a firm from the pool of qualified vendors in accordance with the Treasurer or Using Agency's needs and the following process. If a contractor is not able to participate in a specific project due to a conflict of interest or scheduling, it shall decline the request for a competitive quote in writing to the requesting Treasurer or Using Agency within three (3) business days of issuance of the request. Any contractor already engaged in providing oversight, compliance or consulting services regarding the use of federal disaster relief funds shall be ineligible to submit a proposal for any other services related to that engagement.

For each request, each contractor that does not have a conflict of interest or scheduling shall respond within five (5) business days with the following:

- A detailed proposal, including a detailed budget, to perform the scope of work reflecting the requirements of the engagement for competitive price quotes;
- A contract schedule that shall identify the performance milestones and associated deliverable items to be submitted as evidence of completion of each task and/or sub-task;
- Person-hour and/or labor category mix: A comprehensive chart showing the person-hours proposed to meet the requirements of the request for competitive quotes. The chart shall be designed to reflect the tasks, sub-tasks, or other work elements required by the request for competitive quote. The chart shall set forth, for each task, sub-task or other work element, the total number of person-hours, by labor category, proposed to complete the contract. The hourly rates used for each labor category shall be the hourly rates specified in the contract; and
- A detailed list of all engagements, contracts or task orders in which the firm is currently providing services for any type of disaster recovery assistance. The list must include the name of the contracting entity, a detailed list of the scope of services and the contract term.

The Treasurer or Using Agency will review the proposals and select the contractor whose proposal is the most advantageous, price and other factors considered. Prior to finalizing any engagement under this contract, the Treasurer or Using Agency must determine whether the intended contractor has any conflict with regard to the services requested with due regard to the entity being audited or monitored. Any person with CDBG responsibilities, decision-making power or information may not obtain a financial interest or benefit from CDBG activity or have any interest in the contract or subcontract. The Treasurer or Using Agency will then issue a task order with a "Not to Exceed" clause to the engaged firm. Any firm may submit pricing lower than its bid price for a specific project. The firm will then be held to that lower pricing for all future engagements.

1.4.3 COST LIABILITY

The State assumes no responsibility and bears no liability for costs incurred by a bidder in the preparation and submittal of a proposal in response to this RFP.

1.4.4 CONTENTS OF PROPOSAL

Your proposal can be released to the public during the protest period established pursuant to N.J.A.C. 17:12-3.3, or under the New Jersey Open Public Records Act, N.J.S.A. 47:1A-1 et seq., (OPRA) or the common law right to know. As provided in N.J.A.C. 17:12-1.2(b):

Subsequent to the proposal submission opening, all information submitted by bidders in response to a bid solicitation is considered public information, notwithstanding any disclaimers to the contrary submitted by a bidder, except as may be exempted from public disclosure by OPRA and the common law.

Any proprietary and/or confidential information in your proposal will be redacted by the State. A bidder may designate specific information as not subject to disclosure pursuant to the exceptions to OPRA found at N.J.S.A. 47:1A-1.1, when the bidder has a good faith legal and or factual basis for such assertion. The State reserves the right to make the determination as to what is proprietary or confidential, and will advise the bidder accordingly. The location in the proposal of any such designation should be clearly stated in a cover letter. **The State will not honor any attempt by a bidder to designate its entire proposal as proprietary, confidential and/or to claim copyright protection for its entire proposal.** In the event of any challenge to the bidder's assertion of confidentiality with which the State does not concur, the bidder shall be solely responsible for defending its designation.

By signing the Signatory Page of this RFP, the bidder waives any claims of copyright protection set forth within the manufacturer's price list and/or catalogs. The price lists and/or catalogs must be accessible to State using agencies and cooperative purchasing partners and thus have to be made public to allow all eligible purchasing entities access to the pricing information.

1.4.5 PROPOSAL SUBMISSION

On the date and time proposals are due under the RFP, all information concerning the proposals submitted may be publicly announced and those proposals, except for information appropriately designated as proprietary and/or confidential, shall be available for inspection and copying. In those cases where negotiation is contemplated, only the names and addresses of the bidders submitting proposals will be announced and the contents of the proposals shall remain proprietary and/or confidential until the Notice of Intent to Award is issued by the Director.

1.4.6 PRICE ALTERATION IN HARD COPY PROPOSALS

Proposal prices must be typed or written in ink. Any price change (including "white-outs") must be initialed. Failure to initial price changes shall preclude a contract award from being made to the bidder.

1.4.7 PROPOSAL ERRORS

In accordance with N.J.A.C. 17:12-2.11, "Proposal Errors," a bidder may withdraw its proposal as described below.

A bidder may request that its proposal be withdrawn prior to the proposal submission opening. Such request must be made, in writing, to the Supervisor of the Proposal Review Unit. If the request is granted, the bidder may submit a revised proposal as long as the proposal is received prior to the announced date and time for proposal submission and at the place specified.

If, after the proposal submission opening but before contract award, a bidder discovers an error in its proposal, the bidder may make a written request to the Supervisor of the Proposal Review Unit for authorization to withdraw its proposal from consideration for award. Evidence of the bidder's good faith in making this request shall be used in making the determination. The factors that will be considered are that the mistake is so significant that to enforce the contract resulting from the proposal would be unconscionable; that the mistake relates to a material feature of the contract; that the mistake occurred notwithstanding the bidder's exercise of reasonable care; and that the State will not be significantly prejudiced by granting the withdrawal of the proposal. After the proposal submission opening, while pursuant to the provisions of this section, you may request to withdraw your proposal and the Director may, in her discretion allow you to withdraw it, the Division also may take notice of repeated or unusual requests to withdraw by a bidder and take those prior requests to withdraw into consideration when evaluating the bidder's future proposals.

All proposal withdrawal requests must include the proposal identification number and the final proposal submission date and be sent to the following address:

Department of the Treasury
Procurement Bureau
PO Box 230
33 West State Street – 9th Floor
Trenton, New Jersey 08625-0230
Attention: Supervisor, Proposal Review Unit

If during a proposal evaluation process, an obvious pricing error made by a potential contract awardee is found, the Director shall issue written notice to the bidder. The bidder will have five (5) days after receipt of the notice to confirm its pricing. If the vendor fails to respond, its proposal shall be considered withdrawn, and no further consideration shall be given it.

If it is discovered that there is an arithmetic disparity between the unit price and the total extended price, the unit price shall prevail. If there is any other ambiguity in the pricing other than a disparity between the unit price and extended price and the bidder's intention is not readily discernible from other parts of the proposal, the Director may seek clarification from the bidder to ascertain the true intent of the proposal.

1.4.8 JOINT VENTURE

If a joint venture is submitting a proposal, the agreement between the parties relating to such joint venture should be submitted with the joint venture's proposal. Authorized signatories from each party comprising the joint venture must sign the proposal. A separate Ownership Disclosure Form, Disclosure of Investigations and Actions Involving Bidder form, Disclosure of Investment Activities in Iran form, and Affirmative Action Employee Information Report must be supplied for each party to a joint venture. The contract may be extended for all or part of **two (2)** one-year periods, by the mutual written consent of the contractor and the Director at the same terms, conditions, and pricing at the rates in effect in the last year of the contract or rates more favorable to the State.

5.3 CONTRACT TRANSITION

Prior to releasing the State's confidential information in response to judicial process, the contractor shall give the State advanced written notice of the subpoena, if not legally prohibited, and provide the State the opportunity to object to the required disclosure. Any other use, sale, or offering of this data to a third party without the State's consent in any form by the contractor, or any individual or entity in the contractor's charge or employ, will be considered a violation of this contract and may result in contract termination and the contractor's suspension or debarment from State contracting. In addition, such conduct may be reported to the State Attorney General for possible criminal prosecution. The contractor shall be liable to the State for a breach of confidentiality subject to the insurance requirements set forth in this RFP.

The contractor shall assume total financial liability incurred by the contractor associated with any breach of confidentiality.

When requested, the contractor and all project staff including its subcontractor(s) must complete and sign confidentiality and non-disclosure agreements provided by the State. Nothing in the contract shall be construed to be a waiver by the State of any warranty, expressed or implied, of any remedy at law or equity, except as specifically and expressly stated in a writing executed by the Director.

5.13.3 REMEDIES FOR FAILURE TO COMPLY WITH MATERIAL CONTRACT REQUIREMENTS

In the event that the contractor fails to comply with any material contract requirements, the Director may take steps to terminate the contract in accordance with the State of NJ Standard Terms and Conditions, authorize the delivery of contract items by any available means, with the difference between the price paid and the defaulting contractor's price either being deducted from any monies due the defaulting contractor or being an obligation owed the State by the defaulting contractor as provided for in the State administrative code, or take any other action or seek any other remedies available at law or in equity.

5.14 LIQUIDATED DAMAGES

Effective and efficient operation of all Task Orders issued pursuant to this contract is necessary to promote the best interests of all parties, especially the public. To the extent that actions of the contractor result in failure to meet performance standards, the State may suffer damages that could be difficult or impossible to quantify. As a result, situations may arise where the imposition of liquidated damages may be required to compensate for the failure to meet performance standards.

If the contractor fails to meet any of the performance standards or conditions of the contract, the State may withhold payment for damages from the fees or premiums due to the contractor in an amount equal to the damages stated in this section. Such payments shall not relieve the contractor of its obligation to remedy any breach of the performance standards to which they relate. Nothing in this section shall limit the State's right to seek damages or any other remedy at law or equity not specified in this section.

Assessment of liquidated damages shall be in addition to, and not in lieu of, such other remedies as may be available to the State of New Jersey. Except and to the extent expressly provided herein, the Division shall be entitled to recover liquidated damages under each section applicable to any given incident.

Upon determination that liquidated damages are to be assessed, the Director shall notify the Contractor of the assessment in writing. The availability of any period of cure will depend on the situation and will be in the sole discretion of the Director. The Director may, in the Director's sole discretion, elect to notify the Contractor that liquidated damages may be assessed so as to provide a warning, prior to assessing them in accordance with this section, but if the Director does not provide such a warning the Director is not precluded from assessing liquidated damages in accordance with this contract.

Liquidated Damages shall be limited to the total amount of payment due to the contractor under the Task Order. The Liquidated Damage provisions will be set forth in the engagement letter that will be sent from the Using Agency to the contractors in the appropriate pool in accordance with Section 1.2.1 ENGAGEMENT PROCESS. The performance standards will vary depending upon the specific scope of work included in the request for competitive price quotes. The contractor's written proposal must provide a detailed description of the work to be performed broken down by task and subtask. The proposal should also contain details on the level of effort, including hours, labor categories, etc., necessary to complete the additional work.

The written proposal must detail the cost necessary to complete the additional work in a manner consistent with the contract. The written price schedule must be based upon the hourly rates, unit costs or other cost elements submitted by the contractor in the contractor's original proposal submitted in response to this RFP. Whenever possible, the price schedule should be a firm, fixed price to perform the required work. The firm fixed price should specifically reference and be tied directly to costs submitted by the contractor in its original proposal. A payment schedule, tied to successful completion of tasks and subtasks, must be included.

After the proposals are reviewed, one, some or all of the bidders may be asked to clarify certain aspects of their proposals. A request for clarification may be made in order to resolve minor ambiguities, irregularities, informalities or clerical errors. Clarifications cannot correct any deficiencies or material omissions or revise or modify a proposal, except to the extent that correction of apparent clerical mistakes results in a modification.

The bidder may be required to give an oral presentation to the State concerning its proposal.

Bidders may not attend the oral presentations of their competitors.

It is within the State's discretion whether to require the bidder to give an oral presentation or require the bidder to submit written responses to questions regarding its proposal. Action by the State in this regard should not be construed to imply acceptance or rejection of a proposal. The Division will be the sole point of contact regarding any request for an oral presentation or clarification.

6.7 EVALUATION CRITERIA

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate proposals received in response to this RFP. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process:

6.7.1 TECHNICAL EVALUATION CRITERIA

- a. Personnel: The skills, qualifications and depth of experience of the bidder's management, supervisory, and key personnel assigned to the contract, including the candidates recommended for each of the positions/roles required.
- b. Experience of firm: The bidder's documented experience in successfully completing similar contracts in relation to the work required by this RFQ, including the firm's experience with CDBG-DR, HUD and/or FEMA or other federal agency experience and the firm's subcontracting plans, if any, for the inclusion of qualified small businesses.
- c. Ability of firm to complete the Scope of Work based on its Technical Proposal: The overall ability of the bidder to undertake and successfully complete the technical requirements of the Pool for which bidder submits a proposal in a timely manner, including its approach to deliver and manage services required under any Task Order issued to the firm.

6.7.2 BIDDER'S PRICE SCHEDULE

For evaluation purposes, bidders will be ranked according to the total proposal price located on the Price Sheet/Schedule accompanying this RFP.

The bidder shall provide an hourly rate for each staff position listed in the Price Schedule. As part of its proposal the bidder is to set forth how its hourly rates will be applied to the various services requested within the RFP. The Treasurer or a Using Agency will determine reasonable cost, based on hourly prices bid, for each individual Task Order issued.

The contractor shall provide services pursuant to each Task Order on a time and materials basis in accordance with the rate schedule provided in the Price Schedule. Contractor's direct cost must be supported and separately invoiced.

Direct costs may include: postage (includes US Mail, FedEx, UPS, and etc.) for purposes of mailings, notifications, etc.; personal computer workstations, laptop computers, computer peripherals (scanners, printers); security for on-site inspections on a pre-approved basis; advanced recording fees; cost of outreach and other public events; wire communication devices (cell phones, GPS, wireless cards, etc.) for purposes of remote communication for FTEs performing field based work; lease costs (according to the agreed-upon cost per square foot); notary service fees, and legal service fees related to Third Party Requests for Release of Information. Additional Direct Costs, if required, must be approved in advance of purchase by the State Contract Manager.

Prior to the purchasing or leasing any Direct Costs, the Contractor shall provide a list of these costs to the State Contracting Manager. The State Contracting Manager will review that list and will either (a) authorize the Contractor to purchase, obtain or lease the items or services and submit that expense for reimbursement (with proper documentation), or (b) deny the request. For any such purchases, the Contractor should obtain price quotations from a minimum of three (3) sources.

6.7.3 PROPOSAL DISCREPANCIES

In evaluating proposals, discrepancies between words and figures will be resolved in favor of words. Discrepancies between unit prices and totals of unit prices will be resolved in favor of unit prices. Discrepancies in the multiplication of units of work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated total of multiplied unit prices and units of work and the actual total will be resolved in favor of the actual total. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum of the column of figures.

6.7.4 EVALUATION OF THE PROPOSALS

After the Evaluation Committee completes its evaluation, it recommends to the Director for award the responsible bidder(s) whose proposal, conforming to this RFP, is most advantageous to the State, price and other factors considered. The Evaluation Committee considers and assesses price, technical criteria, and other factors during the evaluation process and makes a recommendation to the Director. The Director may accept, reject or modify the recommendation of the Evaluation Committee. Whether or not there has been a negotiation process as outlined in Section 6.8 below, the Director reserves the right to negotiate price reductions with the selected bidder.

6.8 NEGOTIATION AND BEST AND FINAL OFFER (BAFO)

After evaluating proposals, the Division may enter into negotiations with one bidder or multiple bidders. The primary purpose of negotiations is to maximize the State's ability to obtain the best value based on the requirements, evaluation criteria, and cost. Multiple rounds of negotiations may be conducted with one bidder or multiple bidders. Negotiations will be structured by the Division to safeguard information and ensure that all bidders are treated fairly.

Similarly, the Division may invite one bidder or multiple bidders to submit a best and final offer (BAFO). Said invitation will establish the time and place for submission of the BAFO. Any BAFO that is not equal to or lower in price than the pricing offered in the bidder's original proposal will be rejected as non-responsive and the State will revert to consideration and evaluation of the bidder's original pricing.

If required, after review of the BAFO(s), clarification may be sought from the bidder(s). The Division may conduct more than one round of negotiation and/or BAFO in order to attain the best value for the State.

After evaluation of proposals and as applicable, negotiation(s) and/or BAFO(s), the Division will recommend, to the Director, the responsible bidder(s) whose proposal(s), conforming to the RFP, is/are most advantageous to the State, price and other factors considered. The Director may accept, reject or modify the recommendation of the Division. The Director may initiate additional negotiation or BAFO procedures with the selected bidder(s).

Negotiations will be conducted only in those circumstances where they are deemed by the Division or Director to be in the State's best interests and to maximize the State's ability to get the best value. Therefore, the bidder is advised to submit its best technical and price proposal in response to this RFP since the State may, after evaluation, make a contract award based on the content of the initial submission, without further negotiation and/or BAFO with any bidder.

All contacts, records of initial evaluations, any correspondence with bidders related to any request for clarification, negotiation or BAFO, any revised technical and/or price proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until a Notice of Intent to Award a contract is issued.

NOTE: If the Division contemplates negotiation, proposal prices will not be publicly read at the proposal submission opening. Only the name and address of each bidder will be publicly announced at the proposal submission opening.

6.9 COMPLAINTS

A bidder with a history of performance problems as demonstrated by formal complaints and/or contract cancellations for cause pursuant to Section 5.7.b of the State of NJ Standard Terms and Conditions accompanying this RFP may be bypassed for an award issued as a result of this RFP.

ATTACHMENT 1

CHAPTER 37

AN ACT authorizing the deployment of oversight monitors in the implementation of certain recovery and rebuilding projects, supplementing Title 52 of the Revised Statutes.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

C.52:15D-1 Findings, declarations relative to deployment of oversight monitors in implementation of certain recovery and rebuilding projects.

The Legislature finds and declares that:

- a. Hurricane Sandy has inflicted approximately \$30,000,000,000 worth of damage upon the State and exposed the need for more than \$7,000,000,000 in mitigation efforts to buttress the State's defenses from future storms, according to the Governor's initial estimates of November of 2012;
- b. The State of New Jersey, with the assistance of the federal government, shall endeavor to repair, rebuild, and revitalize the portions of the State devastated by Hurricane Sandy;
- c. The State of New Jersey is duty bound to its residents and all taxpayers in the United States to ensure that all resources dedicated to the recovery from Hurricane Sandy be applied in an efficient manner and that the State should take all necessary precautions to prevent, detect, and remediate waste, fraud, and abuse;
- d. Given the severity of the damage caused by Hurricane Sandy and the magnitude of the resources necessary to begin the recovery process there is a need to ensure that the State has sufficient capacity for efficient oversight; and
- e. The use of integrity monitors as independent oversight providers may be an effective measure to supplement the State's existing compliance control mechanisms to prevent the inefficient expenditure of Hurricane Sandy recovery resources.

C.52:15D-2 Conditions required in certain contracts using integrity oversight monitor; waivers.

- a. (1) Subject to the availability of federal funding, for each State contract involving consideration of \$5,000,000 or more for a recovery and rebuilding project, the State Treasurer shall require to be included in the contract such conditions as the State Treasurer deems necessary to facilitate the use of integrity oversight monitors.

The State Treasurer shall select integrity oversight monitors for the implementation of a contract, unless this condition is waived by the State Treasurer upon a determination that sufficient integrity oversight is already present in the contract or a funding recipient's existing compliance controls.

The State Treasurer shall have the authority to require that the services of an integrity

oversight monitor be retained from the qualified integrity oversight monitor pool established pursuant to subsection b. of this section for any duration of the contract upon a determination by the State Treasurer that an integrity oversight monitor is necessary to alleviate potential or ongoing inefficiency or that the size or nature of the contract makes the procurement of an integrity oversight monitor prudent.

(2) Subject to the availability of federal funding, for recovery and rebuilding projects not involving a State contract, the governmental entity that is a party to such contract shall provide the State Treasurer, in such form as the State Treasurer may prescribe, notice of such contract, a description of the recovery and rebuilding project, the parties thereto, and the funding source for the project costs, including integrity oversight monitoring services. Upon receipt of such notice, and subject to the availability of federal funding, the State Treasurer shall procure the services of an integrity oversight monitor from the qualified integrity oversight monitor pool established pursuant to subsection b. of this section during the initial implementation of the recovery and rebuilding project involving a contract that includes consideration of \$5,000,000 or more, unless this condition is waived by the State Treasurer upon a determination of sufficient funding recipient compliance controls.

For recovery and rebuilding projects not involving a State contract, the State Treasurer shall have the authority to procure the services of an integrity oversight monitor from the qualified integrity oversight monitor pool established pursuant to subsection b. of this section for any duration of a recovery and rebuilding project involving a contract that includes consideration of \$5,000,000 or more upon a determination by the State Treasurer that an integrity oversight monitor is necessary to alleviate potential or ongoing inefficiency or that the size or nature of the recovery and rebuilding project makes the procurement of an integrity oversight monitor prudent.

(3) If the State Treasurer issues a waiver of the requirement for an integrity oversight monitor pursuant to this subsection, the State Treasurer shall provide the Governor, the Senate President, and the Speaker of the General Assembly a report in accordance with section 2 of P.L.1991, c.164 (C.52:14-19.1), which report shall detail the reasoning associated with the waiver and the contract or funding recipient's existing compliance controls. The report shall be due within ten business days of the issuance of the waiver.

(4) Subject to the availability of federal funding, for a State or non-State contract involving consideration of less than \$5,000,000 for a recovery and rebuilding project, the State Treasurer's authorization to impose conditions concerning integrity oversight monitors pursuant to paragraphs (1) and (2) of this subsection shall apply if the State Treasurer determines that integrity oversight monitor conditions are necessary to alleviate potential or ongoing inefficiency or that the size or nature of a recovery and rebuilding project makes the procurement of an integrity oversight monitor prudent.

b. The State Treasurer shall establish a pool of qualified integrity oversight monitors. The State Treasurer shall qualify integrity oversight monitors for inclusion in the pool through a public procurement process in accordance with existing public contracting laws and regulations. Provided, however, to expedite the implementation of integrity oversight monitor oversight for recovery and rebuilding projects, the State Treasurer is authorized to administer the public procurement process for integrity oversight monitors in as expeditious a manner as is feasible under existing public contracting laws and regulations and to take such anticipatory action as is necessary to begin the selection process and creation of a qualified

integrity oversight monitor pool in advance of the State's receipt of applicable federal resources dedicated to the recovery from Hurricane Sandy or other storms.

Upon inclusion on the qualified integrity oversight monitor pool, a qualified integrity oversight monitor is eligible for assignment pursuant to subsection a. of this section. The pool of qualified integrity oversight monitors shall be made available through a public website. This section shall not be construed to authorize the waiver of any applicable provision of law or regulation governing conflicts of interest.

c. An integrity oversight monitor shall periodically report to the governmental entity that is a party to the contract as the State Treasurer deems necessary and shall be subject to the malfeasance and inefficiency reporting protocol developed by the State Treasurer in consultation with the State Comptroller. The State Treasurer's reporting protocol shall require an integrity oversight monitor upon a finding of a likely criminal violation or lesser degree of waste, fraud, or abuse, to make a report immediately to the Attorney General and State Comptroller.

d. For purposes of executing the oversight functions of an integrity oversight monitor an integrity oversight monitor shall be afforded access to all records and information necessary to execute the integrity oversight monitor's oversight functions. Provided however, if an integrity oversight monitor's access to records and information may compromise sensitive information, the chief executive officer of the entity in possession of the records may limit the integrity oversight monitor's access accordingly. If a chief executive officer denies sensitive information to an integrity oversight monitor pursuant to this subsection, the chief executive officer shall provide the integrity oversight monitor with its reasoning for the denial in a written notice.

e. On the first business day of each calendar quarter, each integrity oversight monitor shall provide to the State Treasurer for distribution to the Legislature, in accordance with section 2 of P.L.1991, c.164 (C.52:14-19.1), and the Governor a report detailing the integrity oversight monitor's provision of services during the three-month period second preceding the due date of the report and any previously unreported provision of services, which shall include, but not be limited to, detailed findings concerning the integrity oversight monitor's provision of services and recommendations for corrective or remedial action relative to findings of malfeasance and inefficiency. The report shall include a privilege log which shall detail each denial of sensitive information that the integrity oversight monitor exercises in preparing the report for transmission to the Legislature and the Governor pursuant to this subsection. The report shall not include any information which may compromise a potential criminal investigation or prosecution or any proprietary information. The State Treasurer shall have the authority to specify reporting requirements for an integrity oversight monitor pursuant to this subsection relative to the specific services provided by an integrity oversight monitor.

No report shall become due for an integrity oversight monitor until at least three months after commencing duties as an integrity oversight monitor. The State Treasurer shall provide the integrity oversight monitor reports received pursuant to this subsection to the Legislature and the Governor within ten business days of receipt.

f. As used in this section:

“Recovery and rebuilding project” means (1) the use of funds provided pursuant to federal legislation enacted by the 113 Congress of the United States of America which contains, but is not limited to, disaster assistance for impacts associated with Hurricane Sandy, or other major storms, in New Jersey; (2) the use of funds disbursed through the State treasury for undertakings to address the damage associated with the State of Emergency identified in the Governor’s Executive Order 104, dated October 27, 2012, concerning Hurricane Sandy, which undertakings shall include emergency operations, loss reimbursement, repairs, rebuilding, restorations, reconstruction, removal of debris, temporary housing, household assistance, relief, hazard mitigation improvements, construction, and other recovery and rebuilding activities deemed to be a recovery and rebuilding project by the State Treasurer; and (3) the use of funds provided pursuant to federal legislation or disbursed through the State Treasury for undertakings to address the damage associated with any other major storm or natural disaster.

“Integrity oversight monitor” means a private entity that contracts to provide specialized services to ensure legal compliance, detect misconduct, and promote best practices in the administration of recovery and rebuilding projects, which services may include, but shall not be limited to, legal, investigative, accounting, forensic accounting, engineering, other professional specialties, risk assessment, developing compliance system constructs, loss prevention, monitoring, contract managers and independent private inspectors general.

“Sensitive information” means information which if disclosed to an integrity oversight monitor would jeopardize compliance with State or federal law, threaten public health, welfare, or safety, or harm the competitive economic position of a party including, but not limited to, information deemed confidential or proprietary or related to copyright or trade secrets.

This act shall take effect immediately.

Approved March 27, 2013.
