

appellant also provides a letter of recommendation from a previous supervisor which verifies that she was assigned the required out-of-title duties. Therefore, the appellant maintains she is qualified for the subject examination.

*N.J.A.C. 4A:4-2.6(c)* provides that applicants for promotional examinations with open competitive requirements may not use experience gained as a result of out-of-title work to satisfy the requirements for admittance to the examination or for credit in the examination process, unless good cause is shown for an exception.

### CONCLUSION

In the present matter, a review of the documentation demonstrates that initially, Agency Services correctly determined that the appellant was not eligible for the subject examination. The appellant was properly credited with five months based on her provisional service in the title under test and would need an additional two years and seven months of general experience and seven months of specialized experience to qualify for the examination. Primarily performing the duties required to establish eligibility for the title under test would be considered out-of-title work for incumbents in the Senior Community Program Specialist title. However, the appellant has provided copies of her PESs and PARs which verify that the appellant performed the required out-of-title duties since 2010. Additionally, the examination was cancelled due to a lack of qualified applicants and the appellant continues to serve provisionally in the title under test. Under these circumstances, good cause exists to accept the appellant's out-of-title work experience, for eligibility purposes only, and admit her to the subject examination.

### ORDER

Therefore, it is ordered that this appeal be granted, the examination cancellation be rescinded, and the appellant's application be processed for prospective employment opportunities only.

This is the final administrative determination in this matter. Any further review should be pursued in a judicial forum.
