

Office of Financial Management, verifies that the appellant has performed the required out-of-title duties in the Bureau of Procurement and Contract Management since June 2003 due to business necessity.

N.J.A.C. 4A:4-2.6(c) provides that applicants for promotional examinations with open competitive requirements may not use experience gained as a result of out-of-title work to satisfy the requirements for admittance to the examination or for credit in the examination process, unless good cause is shown for an exception.

CONCLUSION

In the present matter, a review of the documentation demonstrates that initially, Agency Services correctly determined that the appellant was not eligible for the subject examination. The appellant was properly credited with two years and six months of experience based on her education and provisional service in the title under test and in accordance with the substitution clause for education would need an additional five years and six months of experience to qualify for the examination. Primarily performing the duties required to establish eligibility for the title under test would be considered out-of-title work for incumbents in the Administrative Analyst 2 title. However, the Director, Office of Financial Management has verified that the appellant performed the required out-of-title duties since June 2003. Additionally, the examination situation is not competitive as only one individual was admitted to the test and the appellant continues to serve provisionally in the title under test. Under these circumstances, good cause exists to accept the appellant's out-of-title work experience, for eligibility purposes only, and admit her to the subject examination.

ORDER

Therefore, it is ordered that this appeal be granted and the appellant's application be processed for prospective employment opportunities only.

This is the final administrative determination in this matter. Any further review should be pursued in a judicial forum.
