RE: Response to RFQ for Ida Environmental Services

Dear Selection Committee,

Dewberry Engineers Inc. is uniquely positioned to support the Department of Community Affairs (DCA) with Environmental Services. We are national leaders in disaster recovery grant review programs—and our firm's Environmental Center of Excellence is based here in New Jersey where the firm employs 260 personnel. Work under this contract will be led and performed by the Parsippany, New Jersey, office.

We understand that the DCA requires Environmental Assessment Field Contractors (EAFs) to conduct Environmental and Historic Preservation (EHP) reviews in compliance with environmental regulatory requirements to clear properties for funding under U.S. Housing and Urban Development (HUD) Community Development Block Grants-Disaster Recovery (CDBG-DR) and Federal Emergency Management Agency (FEMA) funded programs.

Our professionals were devoted to helping New Jersey recover, secure funding, and rebuild responsibly following Superstorm Sandy. Following on more than 50 years of support to the State, our Post-Sandy partnership commenced immediately when Superstorm Sandy hit. We worked throughout New Jersey's Sandy-impacted communities on hundreds of properties providing environmental review to clear projects for federal funding. [REDACTED]

[REDACTED]. For the State, our work included debris disposal oversight for the New Jersey Department of Transportation and Program Management for the New Jersey Department of Environmental Protection's Waterway Debris Removal Program.

We will leverage our experience conducting thousands of EHP reviews in response to disasters. [REDACTED]

[REDACTED] he same Dewberry personnel we offer to the State in this proposal have conducted thousands of EHP reviews. The management and technical skill gained from this work will be vital to your CDBG-DR Program.

Ileana Ivanciu, PhD, is our proposed Principal-in-Charge for this contract and the person authorized to contractually obligate the firm. Please reach her at 973.879.8899 or [REDACTED] Gary Doss, AICP, is our proposed Project Manager. Gary will oversee the day-to-day operation of the work orders under this contract. Gary may be reached at 973.576.9661 or [REDACTED]

We look forward to supporting the DCA in this critical work.

Sincerely,

Ileana S. Ivanciu  
Senior Vice President and Principal-in-Charge

Sincerely,

Gary Doss  
Project Manager

STATE OF NEW JERSEY  
DEPARTMENT OF THE TREASURY - DIVISION OF PURCHASE AND PROPERTY  
33 WEST STATE STREET, P.O. BOX 230 TRENTON, NEW JERSEY 08625-0230

BID SOLICITATION # & TITLE: **Request for Quote (RFQ) for Ida Environmental Services**

The Bid Solicitation advises Bidders (hereinafter "Company") that the submitted "Quotes can be released to the public pursuant to N.J.A.C. 17:12-1.2(b) and (c), or under the New Jersey Open Public Records Act (OPRA), N.J.S.A. 47:1A-1.1 et seq., or the common law right to know." In the event that the Division receives a request for documents related to above referenced Bid Solicitation, in accordance with its statutory obligations under the New Jersey Open Public Records Act and/or the common law right to know, it is the Division's intent to fulfill the request for records which may include a copy of the Company's Quote.

If Company objects to the disclosure of any portions of the Quote, the Company must advise the Division and must attach a detailed statement clearly identifying those sections of the Quote that Company claims are exempt from disclosure. In requesting any exemption, Company must identify the specific statutory or other legal justification for each requested exemption and the factual basis that supports said exemption. In addition, if Company requests any exemption to disclosure of the Quote based upon claims of confidential/proprietary information and trade secrets (setting forth the nature of the formula, process, pattern, device or compilation), in accordance with *Ingersoll-Rand Co. v. Ciavatta*, 110 N.J. 609 (1988), Company must also indicate the following with respect to the requested exemption:

- (6) the ease or difficulty with which the information could be properly acquired or duplicated by others.

Further, if the Quote includes any copyright notices, within five business days, the Division will be permitted to release a copy of the Quote document(s) unless Company serves the Division with an order from a court of competent jurisdiction precluding such release.

The State reserves the right to make the final determination as to what is and is not subject to public disclosure under OPRA and/or the common law right to know, and will advise the Company accordingly. Please note that the State will not honor any claim of confidential, proprietary, trade secret, and/or copyright material that is not supported by a specific statutory or legal justification provided by the Company. The State will not honor any attempts by the Company to designate the entire Quote as proprietary, confidential and/or to claim copyright protection for its entire Quote.

Accordingly, in order to assist the Division with the fulfillment of potential document requests, please select one of the following:

- ☐ The Company's Quote **does not include** any confidential, proprietary and/or trade secrets; and therefore, the Company does not request any redactions be made prior to the release of the documents.

The requested redactions are set forth in the attached statement which specifically identifies the portions of the Quote by section, page number, paragraph and or line; and identifies the specific statutory or other legal reason for each requested exemption.

In the event of any challenge to the Company's assertion of confidential/proprietary information, the Company shall be solely responsible for defending its designation. Company agrees that it shall defend and cooperate in the defense of an action against the State of New Jersey arising from or related to the non-disclosure, due to the Company's request, of documents submitted to the State of New Jersey, and relating to a Quote submitted by the Company in response to the above referenced Bid Solicitation, which was the subject of a request for government records under the New Jersey Open Public Records Act, N.J.S.A. 47:1A-1 et seq. The Company further agrees to indemnify and hold harmless the State against any judgments, costs, or attorneys' fees assessed against the State in connection with any action arising from, or related to, the non-disclosure, due to the Company's request, of documents submitted to the State, which are the subject of a request for government records under OPRA.

The Company makes the forgoing agreement with the understanding that the State may immediately disclose any documents withheld without further notice if the Company ceases to cooperate in the defense of an action against the State arising from or related to the above described non-disclosure due to the Company's request, and will disclose such documents withheld if so ordered by a court of competent jurisdiction.

**Re: Confidentiality and Commitment to Defend Response of Dewberry Engineers Inc.'s Response to Request for Quote for Ida Environmental Services**

Dear Ms. Mackay:

Pursuant to 3.6.6 of the Request for Quote for Idea Environmental Services Dewberry Engineers Inc. ("Dewberry") submits this letter, along with the enclosed redacted version of our Response for the subject project, from which information that is properly exempt from disclosure has been redacted ("Confidential Information") pursuant to the New Jersey ("NJ") Open Records Act, N.J. Stat. § 47:1A-1 *et seq.* ("OPRA"), for the reasons set forth below.

**1. Personal Identifying Information**

The Confidential Information includes personal identifying information the release of which would constitute an unwarranted invasion of personal privacy and is properly exempt from disclosure under the NJ OPRA.

Pursuant to this, it is our position that Confidential Information includes all personal identifying information including the personal contact information for Dewberry, its subconsultants, and personnel, as well as points of contacts for professional references that are not state agencies or related entities, wherever included, throughout the submitted materials. This Confidential Information includes personal tax information.

**2. Proprietary Commercial or Financial Information; Information That Would Give Competitors an Advantage; and Trade Secrets**

The Confidential Information includes proprietary commercial or financial information and trade secrets. The disclosure of this Confidential Information would cause substantial injury to the competitive position of Dewberry and would give an advantage to competitors or bidders. Accordingly, this Confidential Information is properly exempt from disclosure Exemption No. 8 under the NJ OPRA.

More specifically, Confidential Information contained in the following listed sections of our submitted materials has been redacted as proprietary commercial or financial information or trade secrets:

SECTION	MATERIAL
	Transmittal Letter
2	Technical Quote – Management Overview
2	Technical Quote – Organizational Experience
2	Technical Quote - Location
2	Technical Quote – Organizational Chart
2	Technical Quote – Experience with Contracts of Similar Size and Scope
3	Exhibit A - Price Sheet

Dewberry's qualifications, related experience, team organization, and quality assurance program identify Dewberry's confidential and proprietary performance methodologies. This Protected Information includes Dewberry's unique and internally developed contract management processes, methodologies, and support systems. Many such processes and methodologies were specifically developed and tailored to address the exact scope of work and unique challenges that are known to be present for the Project or likely to be encountered. These processes and methodologies were developed, tested, and proven in working on similar projects in the same area, and have then also been deployed for the use on other similar projects having their own unique set of challenges, from which Dewberry has incorporated adaptability into the fabric of its unique contract management processes and approach.

Dewberry's professional resumes and narratives of personnel qualifications identify the key employees of Dewberry, and the unique education and work experience each brings, and when taken collectively, provide a highly qualified experienced team, and constitutes Dewberry's staffing approach formula for performing an environmental review on transit projects. Additionally, throughout the professional resumes and narratives of personnel qualifications, Dewberry identifies not only the critical experience that is necessary for completing this type of work but also reveals other education, experience, and credentials, that create added value and provide Dewberry with a specially formulated competitive advantage by leveraging this proprietary staffing approach. The Confidential Information also identifies unique internally developed methodologies used by Dewberry, and by Dewberry's personnel, on similar projects, that identify internally developed performance methodologies that detail Dewberry's technical approach for how to successfully compete for, and complete, contracts for performing the environmental review for transit projects. This information is not accessible by employees of Dewberry except those needing to know and is not available to the public. Additionally, Dewberry enters into confidentiality agreements with third parties in the event Dewberry does share such information, such as when teaming with other firms on pursuits.

NJ courts have held that information is exempt under the NJ OPRA as a trade secret, proprietary commercial and financial information, that would give a competitive advantage to competitors and bidders when there was a manifest expectation of privacy from the source of the information, the source took measures to guard the secrecy of the information, the information was not known widely throughout the source of the information, and if a competitor knowing the information and strategy would gain an advantage, and information that can be used in the operation of a business or other enterprise and that is sufficiently valuable and secret to afford a potential economic advantage over others. *Comm'n's Workers of Am. v. Rousseau*, 417 N.J. Super. 341, 362, 9 A.3d 1064, 1077 (App. Div. 2010).

Federal courts have held information be exempt as trade secrets and commercial or financial information if the information is "(a) commercial or financial, (b) obtained from a person, and (c) privileged or confidential." *Nat'l Parks & Conservation Assoc. v. Morton*, 498 F.2d 765, 766 (D.C. Cir. 1974).

According to the Restatement (Third) of Unfair Competition, "A trade secret is any information that can be used in the operation of a business or other enterprise and that is sufficiently valuable and secret to afford an actual or potential economic advantage over others." Restatement (Third) of Unfair Competition § 39 (1995).

Here, all these elements are present. Clearly, the Confidential Information is of a commercial and financial nature, as it is used in the performance of commercial operations, for the generation of revenue and financial gains. To that end, Confidential Information derives independent economic value. The Confidential Information is not known by the public and is known only by those in Dewberry needing to know. Dewberry's unique staffing approach and Confidential Information concerning key personnel would provide a list of key hires for a competitor or firm wishing to break into the market, thereby inviting raids on stealing away Dewberry's employees, whom Dewberry has invested considerable resources in sources, staffing, and training and developing. The Confidential Information would also provide

Dewberry's competitors with Dewberry's internally developed performance methodologies, contract management, and technical approach for how to successfully compete for, and complete, contracts for performing environmental projects. Dewberry had a manifest expectation of privacy under the existence of the NJ OPRA each of which protects this Confidential Information from disclosure. Additionally, Dewberry undertakes measures to guard and protect the secrecy of the information, as evident by the submission of this letter, restricting this information to only those in Dewberry needing to know, and entering into confidentiality agreements with third parties. The release of this information would undoubtedly give Dewberry's competitors a competitive advantage, by allowing those competitors to raid Dewberry's employees and implement Dewberry's proprietary proposal and performance strategies in their proposals for similar contracts for which Dewberry also competes. Additionally, even if these Dewberry's confidential and proprietary performance methodologies were to be devised by a competitor, the way Dewberry conducted the research and development required to develop these concepts and performance methodologies created independent economic value and constitutes confidential commercial and financial information and a trade secret. Understanding this Confidential Information would allow competitors to avoid using a more cost and time-intensive method for developing the work product than the unique method and application of different technologies and data types used by Dewberry to accomplish the same work product.

As an integral part of its business in the region, Dewberry has submitted bids on many projects for similar services as those required by the RFP. Moreover, and most concerning, Dewberry plans to continue submitting proposals to NJ TRANSIT solicitations as a critical part of its plan to continue its business, and retention of employees, in the State of New Jersey. The disclosure of this information would result in a chilling effect that would prevent bidders from providing similar information in future bids for fear of losing competitive advantages that have taken significant investment to create. Consequently, the immediate and irreparable harm that would result from disclosure of the Confidential Information is here a palpable reality.

For the reasons set forth above, the Confidential Information is exempt from disclosure. We have enclosed a redacted copy of the materials with the Confidential Information described hereinabove removed. We do not object to the disclosure of the enclosed redacted version of the materials. In the event NJ TRANSIT disagrees, we request we be given advance notice of disclosure of the Confidential Information.

Sincerely,  
Dewberry Engineers Inc.

Craig Johnson, PE  
Executive Vice President

Dewberry is an Equal Opportunity Employer and our written Affirmative Action (AA) Plans set forth the policies, practices and procedures that Dewberry is committed to ensure that our policy of nondiscrimination and affirmative action is accomplished. For further information on our AA Plans, please contact HR.

Dewberry expressly prohibits any form of unlawful employee discrimination based on race, creed, color, religion, gender, sex, sexual orientation, gender identity, national origin, age, genetic information, disability, marital status, citizenship status or status as a protected veteran in accordance with applicable federal, state and local laws. Affirmative action is taken as a proactive measure against discrimination in all employment practices and we expect the support of all employees in accomplishing Equal Employment Opportunity. Interference with the ability of Dewberry's employees to perform their expected job duties, or retaliate against an employee is prohibited.

Dewberry's policy of Equal Employment Opportunity and Affirmative Action applies to all aspects of the relationship between the Company and its employees, including:

- Recruitment
- Employment
- Promotions
- Transfers
- Other employment actions (demotions, layoffs, termination)
- Training
- Working conditions

Dewberry's leadership is committed to the principles of Affirmative Action and Equal Employment Opportunity and compliance. The Chief Compliance and Human Resources Officer has been appointed as the Equal Employment Opportunity (EEO) Officer for Dewberry and is responsible for compliance, enforcement, and required reporting of our Equal Employment Opportunity Policy and Affirmative Action Programs. Managers are assigned the responsibility for the daily administration of this policy throughout their areas of responsibility.

### **TITLE VII**

Dewberry will not discriminate on the grounds of race, religion, color sex, national origin, age, or disability in the selection and retention of sub-consultants, including procurements of materials and leases of equipment. Dewberry will not participate either directly or indirectly in the discrimination prohibited by 49 CFR, Part 21.5.

### **TITLE VI**

Additionally, it is the policy of the Company to comply with the regulations of Title VI of the Civil Rights Act of 1964, as amended and other nondiscrimination laws and authorities that include regulations relative to nondiscrimination in federally-assisted programs. No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

### **3.08 Conflict Resolution**

To ensure effective working relationships, it is important that any conflicts be resolved before creating serious problems in the work place. If an employee is unable to resolve an issue directly with the other individual(s) involved, the employee should engage their immediate supervisor. If necessary for any reason, discussion with higher levels of management and/or a member of Human Resources is encouraged.

Dewberry does not tolerate any form of retaliation against employees solely because they, in good faith, choose to utilize this procedure.

Final authority for resolution of an employee conflict/issue rests with the CEO/COO. The procedures described above are a guide. Their description in the manual does not confer upon an employee a contractual right to insist that these procedures be followed.
